Re: Proposed Muingmore Wind Farm Development

Re: Proposed development of Muingmore Wind Farm — 13 wind turbines, 110kV substation, battery energy storage system (BESS) and associated infrastructure, townlands of Muingmore, Doolough, Tristia, Moneynierin and Bangor, County Mayo. Applicant: RWE Renewables Ireland Limited.

A Chara,

I wish to submit the following observation in respect of the above-named planning application, in accordance with Section 37E of the Planning and Development Act 2000 (as amended) and Article 217 of the Planning and Development Regulations 2001 (as amended).

Hi my name is Ruth. I want to object to the windfarm. I don't want the windfarm to be built where I live. I love where I live. It is a quiet, friendly beautiful village.

I got a shock when my mom showed me how big the turbines are and when she told me they are going to be here for 35 years, it made me so sad.

I worry now that our village will look so ugly that nobody will want to visit, or even want to move here.

I had hoped when I am big there is a lovely forest where the windmills will be going. I wonder what will happen to all the animals that live there and they will be frightened by the noise, and not want to live here anymore.

We learn about windmills at school and how they are good for making electricity but I hope in my heart that they don't come here.

I hope they can go somewhere else, not near our houses, not near our school and not near our forest.

For the reasons set out above, I respectfully request that An Coimisiún Pleanála refuse permission for the proposed Muingmore Wind Farm development.

Mise le meas / Yours sincerely,

Ruth Sweeney
