Re: The Proposed Development of the 'Nore River Facilities Kilkenny'
Johns Street Lower, Collegepark, Kilkenny City, Co. Kilkenny

Dear Sir / Madam,

An Coimisiún Pleanála has received your recent submission in relation to the above-mentioned proposed development and will take it into consideration in its determination of the matter.

Please note that the proposed development shall not be carried out unless the Commission has approved it with or without modifications.

If you have any queries in relation to the matter, please contact the undersigned officer of the Commission at laps@pleanala.ie.

Please quote the above-mentioned An Coimisiún Pleanála reference number in any correspondence or telephone contact with the Commission.

Yours faithfully,

Muirín Gowen
Executive Officer

Development Location: located within the grounds of County Hall at Johns Street Lower, Collegepark, Kilkenny City, Co. Kilkenny.

Development Description: The proposed development will consist of: Construction of a riverside facilities centre comprising the following;

Demolition of an existing single-storey maintenance store, Removal of selected on-site vegetation to facilitate the works, Single-storey facilities block with a flat, intensive green roof build-up, containing toilets, universally accessible bathroom, changing places facility, showering / changing cubicles, cleaner's store, outdoor showers, an external plant area, storage lockers, wash trough, and a drying room, Single-storey adjoining community block with an asymmetrical pitched roof containing a community room, associated kitchenette, and a plant room / central information point, Adjoining external covered terrace area with a flat intensive green roof build-up, A single-storey storage block with an asymmetrical pitched roof containing equipment storage, a dragon-boat / rowing boat storage, and a maintenance store, A single-storey adjoining block with a mono-pitched roof containing a boat / general storage area, A hard-landscaped pedestrian central space with raised central planter / seating, planted areas, boat wash-down area and associated surface water UV filtration system, Proposed shared surface including a central set-down / vehicular turning area for boat loading / unloading and pedestrian use generally, Access route to river over berm comprising a sloped access path with associated retaining wall, steps, landings, balustrading, and associated handrails, Raised walkway from top of berm to pontoon with associated balustrading / handrails, Part fixed / part floating access pontoon within the river, Site services connections and drainage works, including connection to existing public foul and stormwater system, Universally accessible parking bay and covered bicycle parking area, Public lighting to all pedestrian / vehicular / parking areas, Associated archaeological investigations, including test excavations and underwater surveys All necessary landscaping, site boundary and site development works.

A Chara,

Uisce Éireann (UÉ) has reviewed the plans and particulars submitted with the application and has the following observations;

The applicant has engaged with Uisce Éireann via a Pre-Connection Enquiry and Uisce Éireann can confirm that a Confirmation of Feasibility CDS23009404 has been issued to the applicant advising that water and wastewater connections are feasible subject to upgrades.

In order to complete the proposed water connection, the Uisce Éireann water network will have to be extended by approximately 50m. Uisce Éireann currently does not have any plans to extend its network in this area.

In order to complete the proposed wastewater connection, the Uisce Éireann wastewater network will have to be extended by approximately 175m. Uisce Éireann currently does not have any plans to extend its network in this area

Where it is proposed to connect to infrastructure which is private and not taken in charge, the applicant will be required to receive consent to connect from the asset owner

To ensure adequate provision and protection of water and wastewater facilities, Uisce Éireann recommends the following;

1. Where the applicant seeks a connection to the public network, the applicant shall enter into a connection agreement with Uisce Éireann prior to the commencement of the development and adhere to the standards and conditions set out in that agreement.
2. There shall be no build over of public infrastructure from these proposals. Separation distances as per Uisce Éireann's Standards Codes & Practices shall be achieved where public infrastructure is in situ within and/or adjacent to site boundaries*.
3. The development shall not impact public drinking water sources and/or abstraction point(s) and/or abstraction infrastructure**.
4. The design and construction of the Water & Wastewater pipes and related infrastructure to be installed in this Development shall comply with the Uisce Éireann Connections and Developer Services Standard Details and Codes of Practice.

Queries relating to the terms and observations above should be directed to planning@water.ie

Yours sincerely,

Dermot Phelan
Connections and Developer Services

Advisory Note(s):

*Uisce Éireann does not permit build over of its assets. Separation distances from public infrastructure, as per Uisce Éireann's Standards Codes and Practices must be achieved. It is the applicant's responsibility to submit a diversion enquiry to Uisce Éireann Diversions Section

(diversions@water.ie) prior to construction, where a potential build over of public assets is in question and/or where the applicants proposals cannot achieve separation distances from public infrastructure as per UÉ Standards & Codes of Practice.

**** Protection of drinking water source(s) from potentially adverse impacts is a priority for Uisce Éireann. It is Uisce Éireann's current policy to maintain safe and secure drinking water supplies and ensure that development will not give rise to any deterioration in water quality. Development proposals shall not impact public drinking water sources and/or abstraction point(s). It is also a requirement of the Water Framework Directive that waters used for the abstraction of drinking water are protected to avoid deterioration in quality. Development proposals shall not impact public drinking water sources and/or abstraction point(s).**

Any person discharging trade effluent** to a sewer, must have a Trade Effluent License issued pursuant to section 16 of the Local Government (Water Pollution) Act, 1977 (as amended). More information and an application form for a Trade Effluent License can be found at the following link: <https://www.water.ie/business/trade-effluent/about/> . Trade effluent is defined in the Local Government (Water Pollution) Act, 1977 (as amended).

Uisce Éireann does not permit surface waters into the public sewer network.
