Dear Niamh,

I refer to correspondence received from An Coimisiún Pleanála ('ACP' or 'the Commission') dated the 18th of September 2026, requesting the Applicant, Cunlaghfadda Green Energy Limited, to submit a response to the submissions and observations received by the Commission on the Strategic Infrastructure Development planning application for a 110kV onsite electrical substation, loop-in grid connection, and associated infrastructure and works, located in Co. Mayo ('the Proposed Development'), ACP Case Reference ACP-324429-26.

The Commission subsequently confirmed via email on the 7th of October 2026 that Mayo County Council has until the 30th of November 2026 to make a submission on this case and that the Applicant will be allowed time to respond to this submission once it is received. On this basis, it is expected that the Commission will not be in receipt of the Applicant's response on all submissions until December 2026 - January 2027.

Due to the quantity and nature of the submissions and observations received the Applicant wishes to seek an extension to the timeline stipulated by the Commission for the receipt of the response. The Applicant wishes to seek an extension of four weeks from the original date of 16th of October 2026, with a new timeline of the 13th of November 2026.

We would be grateful if you could please confirm receipt by COB today.

Kind regards,
Francesca.
