Hi All

I would like to place an objection on the planning application '324429', for a 110 kv substation. The substation is a part of a multi-planning application to create a Windfarm in Mayoabbey. The original Windfarm application that was submitted with Mayo County Council received overwhelming objections and was denied.

The applicants have now decided to apply on multiple fronts to break the will of those who objected. There is also a financial issue as each objection has an associated cost.

Although Windfarms are seen as green energy they are not as green as they are being touted at. View the link below:

<https://theecoshift.com/wind-energy-negative-effects/>

The company behind this Windfarm are not from Mayo. They do not care about Mayoabbey or the environment as a whole (I suspect it's about money).

Please reject this application.
