Re: Proposed Upgrades to the Mortarstown Wastewater Treatment Plant and Kilkenny Road Pumping Station
Carlow, County Carlow

Dear Sir / Madam,

An Coimisiún Pleanála has received your recent submission in relation to the above-mentioned proposed development and will take it into consideration in its determination of the matter. Please accept this letter as a receipt for the fee of €50 that you have paid.

The Commission will revert to you in due course with regard to the matter.

Please be advised that copies of all submissions / observations received in relation to the application will be made available for inspection on the Commission's website at the following link: <https://www.pleanala.ie/en-ie/case/324447>.

More detailed information in relation to strategic infrastructure development can be viewed on the Commission's website: www.pleanala.ie.

If you have any queries in the meantime, please contact the undersigned officer of the Commission. Please quote the above-mentioned An Coimisiún Pleanála reference number in any correspondence or telephone contact with the Commission.

Yours faithfully,

Muirín Gowen
Executive Officer

Carlow,

To whom it may concern,

We have issue with the development's location on the site plan, especially the sludge handling area

The existing sludge processing area is too close to the northeast fence; this is an issue as wind travels in this direction, and the Glen residential estate area is approximately 60 meters from this fence downwind.

There has been no accountability by the management of the plant to nearby residents of odours created by the plant, which will escalate with this large expansion of the plant. Many complaints have been lodged by residents over years.

The sludge/sewage part of the plant is too close to the northeast boundary and does not allow proper dispersion of odours created as such does not allow proper dispersion of the odour from this area, because of proximity to The Glen estate

Refer to;

Environmental Impact Assessment Report (EIAR) volume 3, part 1 of 2, 7.1, 3, 3.1, Odour Management Plan, this states that consideration should be given to moving odour generating activities as far away from residential areas as possible.

It is also noted that the north fence line is adjacent to the new Carlow relief road proposal, therefore exposing the public walking, driving and cycling only a couple of meters along this fence line and exposed to unacceptable odours, this has not been addressed in this application as far as we can determine.

We would ask An Bord Pleanala to consider these observations and to reject the current planning application until the right corrections are made by the applicant.

Thank you
