Memorandum ACP-324478-26

To: Sarah Lynch, Assistant Director of Planning
From: Lauren Griffin, Executive Officer
Re: EIA Determination Request - Outdoor Advertising Project, South Dublin
Date: 9th September 2026

I refer to the attached EIA determination request which was made by Ballyboden Tidy Towns on 29th July 2026.

The part 8 development was advertised by the local authority on 1st July 2026, and the public were given 4 weeks to make an EIA determination request to the Commission.

The request was received within these 4 weeks; however, the requests did not include the class of development, as stated on page 12 of their request submission:

"The Applicant does not suggest that the present proposal necessarily falls within any particular mandatory threshold contained within Schedule 5."

Assistant Director of Planning to advise if sufficient information has been received for the Commission to proceed to consider the EIA determination request, and if the local authority should be informed and Schedule 7A information requested.

File forwarded for review / comments.
