Crumhach Wind Farm, Co. Sligo.
Project No:- 230841

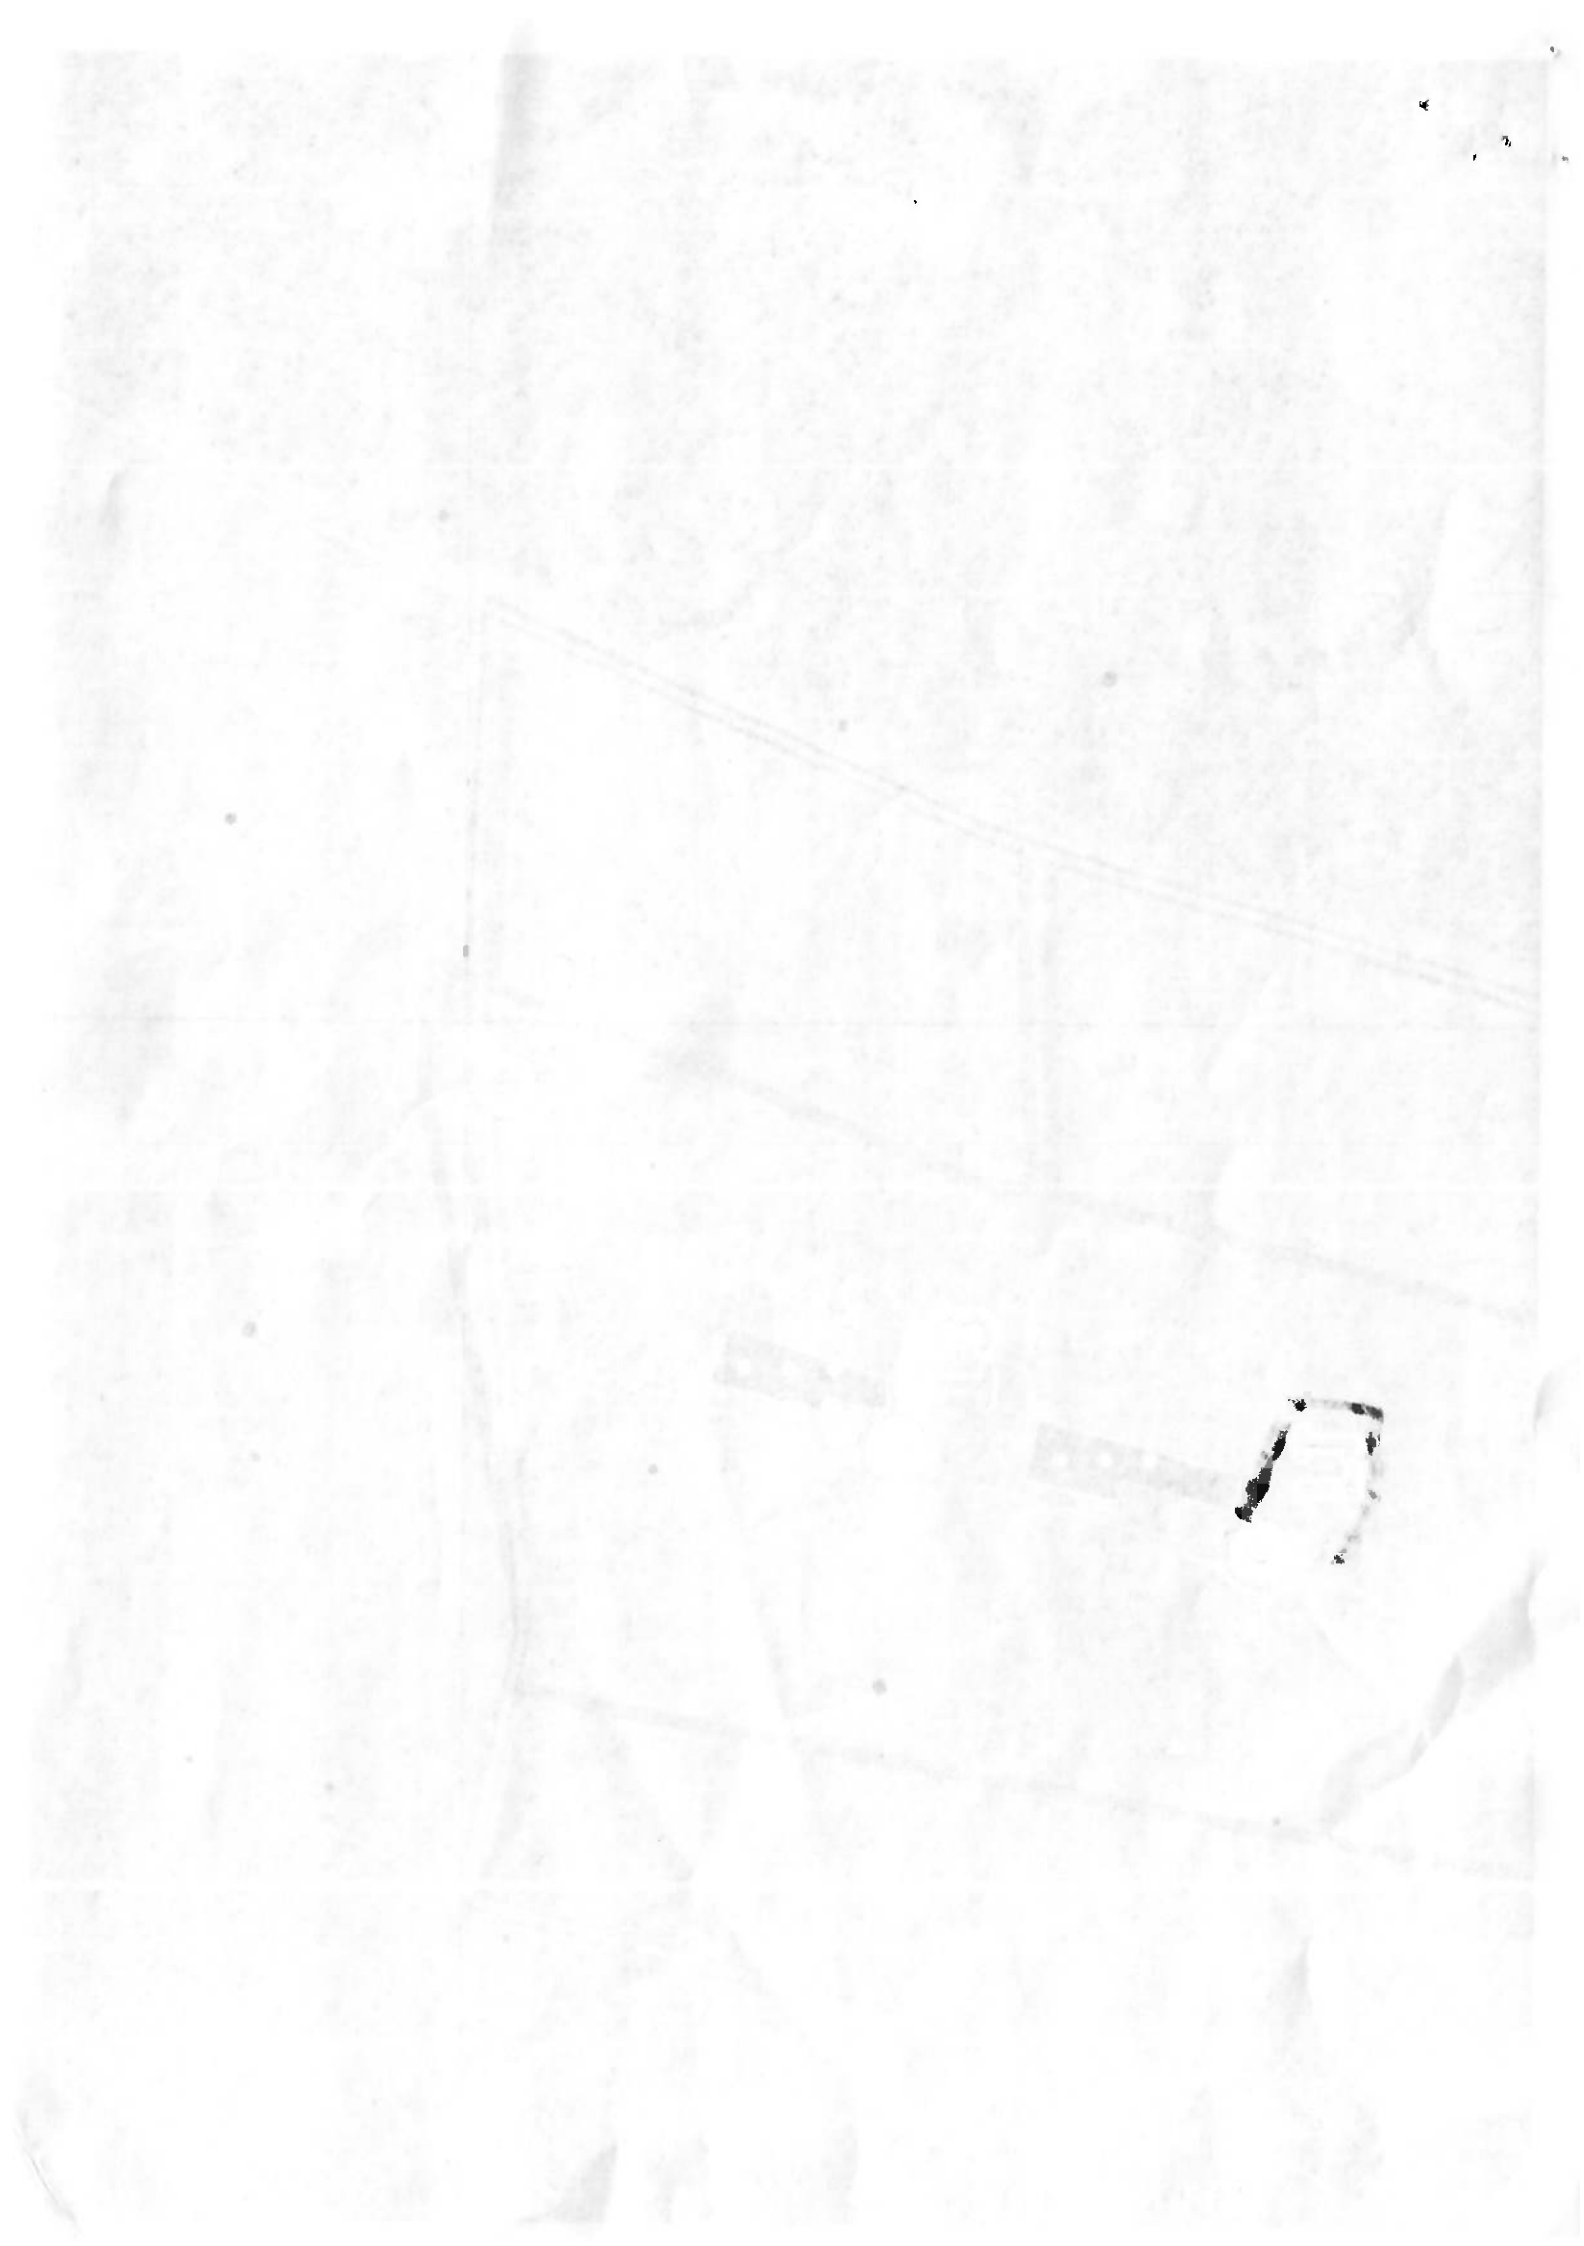

I wish to make a submission/objection on the windmill development called Crumhach Wind Farm. I am a mother of four children one of which is autistic and I work a full time job. I cut turf on this bank where Turbine T1 is located as did my father and his father before him. This turf is for our own domestic use and is my primary source of heating for the family home. We put our concerns to Garby Brides on learning of this project last August 2025 and he informed me he would be back in contact which he never did. We have tried to contact him this year but there was no response and on talking to other turf cutters in the affected bog no one seemed to know anything or was not contacted by anyone. If this development stops me from cutting turf it stops me from heating my home which puts my family under awful stress. With the price of energy and fuel there are no other alternatives on my budget. On the basis I have explained I must object to this development as it stands. I enclose a copy of my most recent letter to show the efforts I have made to communicate with them my concerns. Hoping you will take this on board when considering this development as it stands.

Reference: Crumhach Wind Farm Project

Dear Mr Garry Brides,

I am writing to you in relation to the development of the Crumhach Wind Farm Project.

Your proposed development of turbine number T01 is on the bank where we do extract turf every year and Siobhan's family have for over the last 100 years.

We were chatting to you at Templeboy old school in July 2025. You should have record of this as you requested us to sign an attendance record. We also informed you through writing from our solicitor about our concerns at that time and we were informed at that meeting that some contact would be made during the month of September. However, no contact was subsequently made to us.

Due to my husband's health scare and subsequent operation I had other matters on my mind at that time. However, having reviewed your planning proposals online it means that no turf will ever be extracted from this bog again and our rights are being cast aside.

Having chatted with other people who extract turf from this bog, they also confirmed that they had no knowledge or correspondence from your company or any other body.

As the turf is our main source of heating. This is a very serious concern for us. We are writing to you in advance of going down another avenue in the trust that you will deal with our concerns by dialog and agreement. If we don't receive any contact from you within a short period of time, we will then have to proceed down other avenues.

Yours Sincerely,

Siobhan and Sean Henry
