Re: Notification to the Minister for Housing, Local Government and Heritage under the Planning and Development Act, 2000, as amended.

Development: completion of Closed Landfill Remediation Works at a Closed Landfill site

A Chara,

I refer to correspondence received in connection with the above.
Outlined below are heritage-related observations/recommendations of the Department co-ordinated by the Development Applications Unit under the stated heading:

Nature Conservation

The Department notes that this application relates to the amendment of a consented planning application in 2023. This amendment specifically relates to an extension of the total development area. The Department acknowledges the findings of the Natura Impact Statement in respect of the Lough Oughter & associated Loughs SAC (site code: 000007), noting the hydrological connections identified via the adjacent Kilgormly and Magherarny Rivers. The latest WFD assessment (2019-2024) assessed the FINN (Monaghan)_030 waterbody as of Moderate status. An EPA Certification of Authorisation (H0366-01) was granted in 2021 for the closed landfill rehabilitation, reasoning that the activity will not have an adverse impact on the integrity of a European site. The Department therefore

recommends that all mitigation measures as outlined in the NIS and the CEMP should be strictly adhered to.

You are requested to send any further communications to this Department's Development Applications Unit (DAU) at manager.DAU@npws.gov.ie, where used, or to the following address:
