Kildare County Council	221035	the provision of a renewable biogas and biofertiliser production facility with an intake of up to 165,000 tonnes of feedstock per annum that will feed into the existing Gas Networks Ireland (GNI) network. The facility will comprise of: *Input weigh bridges and weighbridge offices; *Reception (incorporating offices, control room/laboratory, canteen, changing and toilet facilities) *Feedstock building and solid digestate store; *Boiler/plant maintenance including ESB and CHP store; *4 No digestor units and 1 No post digester unit, pre-acidification unit, biological desulphurisation and technical building all located within a containment bund; *Covered storage tanks; * Silage clamps; *Connection to existing Gas Network Ireland infrastructure The proposed development includes for associated biogas tank; gas upgrade units (5 no.); and an emergency gas flare. The development also includes air cleaner (feedstock area); 5 no. air cleaner stacks and 2 no. boiler and CHP plant flues; odour abatement, firefighting water tank; attenuation pond, a new gated access from R445; internal access roads, car parking, loading bays and laybys, landscaping and boundary fencing. A personnel gate is proposed to the north of the site. The proposed development comprises all associated site development, drainage and infrastructure works above and below ground. The maximum height of the proposed development is the digester units at c.141m above ground level. The proposed facility will primarily utilise spent grains from breweries along with smaller quantities of other brewery by products such as yeast and discarded beer. Maize will also be accepted in smaller quantities as a feedstock to produce biogas which will be upgraded to bio methane and fed into the natural gas grid. Carbon Dioxide will be recovered as a by-product as part of the process. Solid and liquid digestate that will be produced from the process will be a biofertiliser. No waste materials will be accepted as feedstock at the facility. An Environmental Impact Assessment Report (EIAR) and Natura Impact Statement (NIS) have been prepared in respect of the proposed development on a site of approx. 7.9Ha. Revised by Significant Further Information which consists of revisions to the site access and works to the road and footpath alongside the site including the provision of public lighting, signage, anti-skid surfacing and a crash barrier. Kildare County Council	2560164	for the demolition of an existing single-storey house and garage and the provision of twenty homes comprising two no. two-storey terrace blocks of housing containing five no. three-bedroom dwellings in each block; one two-storey terrace block of housing containing four no. three-bedroom dwellings; and a two-storey detached building containing six no. two-bedroom own-door apartments. The application includes modified site access and internal access roads with turning hammerheads, the creation of twenty five parking bays, the provision of passive and active communal open spaces and all water, sewage and stormwater connections to the local networks. Revised by Significant Further Information which consists of: The number of residential units proposed has been reduced from twenty to eighteen. Two storey own-door apartment block type 'A' containing six no. two bed apartments is replaced with new terrace block 4 containing two no. three bed houses and two no. two bed houses. Terrace blocks 1 & 2 each now have four no. three bed houses and one no. two bed house. This mix replaces the former mix of five no. three bed houses in each block. Engineering design for the foul, surface water and water infrastructure has been updated. A new connection into the existing foul sewer on the Grey Abbey Road is now proposed. Amendments to the site layout have also resulted in updated car and bicycle parking provisions. The design for the access at the site frontage and the frontage to the north of the site has been updated to include for a priority junction and continuation of the existing cycle track and footpath along the Grey Abbey Road. This will tie into the existing cycle track and footpath further north at Grey Abbey View. Revised by Significant Further Information which consists of the following (with these amendments carried out in response to a Clarification of Further Information request): (a) Terrace block type 4 has been amended as follows: o Previously proposed 2 no. 2 bed mid-terrace house type 'B1' has been replaced with 2 no. 2 bed mid-terrace house type 'D1' to eliminate any overlooking from habitable rooms to the rear at first floor level. o Previously proposed 1 no. 3 bed end-terrace house type 'C1' has been replaced with 1 no. 3 bed end-terrace house type 'A1'. Offaly County Council	2560500	EirGrid PLC, with the consent and approval of the Electricity Supply Board (ESB), intends to apply for permission for works to uprate the existing Rinawade – Dunfirth Tee – Kinnegad 110kV overhead line (OHL). Within County Offaly, the proposed development will take place within the following townlands: CLONMORE . The Rinawade - Dunfirth Tee - Kinnegad 110 kV OHL circuit runs through County Meath, County Kildare and County Offaly. It is 54 km in length and travels from Kinnegad 110 kV substation in Killaskillen (County Meath) and traverses southeast where a short loop into Dunfirth 110 kV substation in Dunfirth (County Kildare) exists. The line then continues southeast where it terminates at Rinawade 110kV substation in Rinawade Lower (County Kildare). The OHL has a total of 249no. supporting structures. Within the functional area of Offaly County Council there is 0.42 km of the existing OHL circuit, with 2 no. structures. Within the functional area of Kildare County Council there is 30.66 km, with 140 no. structures, and within the functional area of Meath County Council, there is 23.16 km with 107 no. structures. Separate planning applications will be lodged with Kildare County Council and Meath County Council. The proposed development within Co. Offaly will comprise: •the replacement ("restringing") of the existing OHL circuit conductor wires with a new higher capacity conductor and fibre wrap between structure numbers 38 – 39; •the painting of tower no. 38; •the replacement of insulating and ancillary hardware at all structures where conductor wires will be replaced; •all associated temporary site development works to gain access to the existing structures including vegetation clearance and management, disassembly and reassembly of gate posts / piers and removal and reinstatement of existing fencing; and •other temporary associated and ancillary site development works required for the purpose of the uprate of the existing circuit, including silt traps, silt fences, vegetation clearance and management, stone tracks, ground protection mats, infrastructure crossing support systems (i.e., guard poles) and temporary watercourse crossings.
