Email 1 of 3 - PA0033 - Galway Harbour Extension – (1) Response to An Bord Pleanála arising from NPWS Queries on Compensatory Measures Plan

Dear Madam,

We refer to your letter of 20 October 2021 which enclosed the letter of 3 August 2021 from the National Parks and Wildlife Service (“NPWS”) and requested our submissions and observations on same.

We have actively engaged in constructive interactions with the NPWS in order to address the items identified in that correspondence and we attach herewith (by way of 3 emails due to file size memory) our response to An Bord Pleanála (“ABP”). The Compensatory Measures now include additional land at Tawin West and adjustments to the previous proposals following the engagement with the NPWS.

The response package includes the following documentation:

1. Response to An Bord Pleanála arising from NPWS Queries on Compensatory Measures Plan **(Email 1)**
2. Compensatory Measures Plan, Accompanying Measures and Additional Environmental Benefits **(Email 2)**
3. 2022 Addendum to Natura Impact Statement, to include Consideration of the Compensatory Measures, Accompanying Measures and Environmental Benefits **(Email 3)**

Three hard copies and two electronic copies have been formally posted to you and these are the email copies, for your records and information.

To the extent that ABP consider that a tri-partite meeting would be of benefit to the process in order to expedite matters, we would be glad to make ourselves available and NPWS have also indicated a willingness to participate in same.

We would be very grateful if you would be able to acknowledge receipt of the documents at your convenience and we trust that the response is to your approval.

Thank you,
Brendan
