### **Habitat Survey Results - Species Lists**

## A.8.19

This appendix presents the species lists for habitats recorded along, and adjacent to, the proposed road development.

**Section A.8.19.1** presents the species lists for those habitat areas within the ecological sites. **Section A.8.19.2** presents the species lists for habitat areas between the ecological sites but excluding the area between the River Corrib and Lackagh Quarry (which is described separately in **Section A.8.19.3**). These areas are shown on **Figures 1-4 (Section A.8.19.5)**.

**Section A.18.9.4** presents the relevé data collected along and adjacent to the proposed road development, as referred to in **Sections A.8.19.1** to **A.8.19.3**. The locations of the relevés, and the reference codes, are also shown on **Figures 1 to 4**.

Where referred to, the habitat codes for non-Annex I habitat types are after *A Guide to Habitats in Ireland* (Fossitt, 2000). Annex I habitat codes are as per the *Interpretation Manual of European Union Habitats* (CEC, 2013). Where vegetation community codes are referred to in the sections below, they are as per the following reports (as relevant):

- *Turlough Hydrology, Ecology and Conservation* (Waldren, S. 2015, Ed.)
- *The Irish semi-natural grasslands survey 2007-2012. Irish Wildlife Manuals, No. 78* (O'Neill et al., 2013)
- *Results of monitoring survey of old sessile oak woods and alluvial forests. Irish Wildlife Manuals, No. 71* (O'Neill, F.H. & Barron, S.J., 2013)
- *National survey of limestone pavement and associated habitats in Ireland. Irish Wildlife Manuals, No. 73* (Wilson, S. and Fernández, F., 2013)
- *Guidelines for a national survey and conservation assessment of upland vegetation and habitats in Ireland. Version 2.0. Irish Wildlife Manuals, No. 79* (Perrin et al., 2014)
- *National Survey of Native Woodlands 2003-2008. Volume II: Woodland Classification* (Perrin et al., 2008)

Nomenclature for vascular plant species follows *New Flora of the British Isles*, 3rd Edition (Stace, 2010) and for bryophyte species follows the *Checklist of British and Irish bryophytes* (British Bryological Society, 2009<sup>1</sup>).

## Habitat Species Lists – Ecological Sites

**Table A.8.19.1** presents the species lists for those habitat areas within the ecological sites. It does not include species lists for the residential habitat category (see **Section 8.3.4.34 of Chapter 8, Biodiversity** of the EIA Report) and it also does not include species lists for the aquatic habitats, which are described in full in **Section 8.3.4 of Chapter 8, Biodiversity** and in **Appendix A.8.20 (Results of the 2014 N6 Galway City Transport Project Aquatic Habitat Surveys)**.

Where relevés were taken in the field, the reference codes are provided in the Key Species column (e.g. EC03 R1). These relevé codes refer to the full species lists which are provided in **Appendix A.8.19.4**.

## Habitat Species Lists – Areas between Ecological Sites and Excluding the Lough Corrib cSAC Habitat Survey Area

**Table A.8.19.2** presents the species lists for those habitat areas between the ecological sites; excluding the area between the River Corrib and Lackagh Quarry (which is described separately in **Appendix A.8.19.3**). It does not include species lists for the residential habitat category (see **Section 8.3.4.34 of Chapter 8, Biodiversity**) and it also does not include species lists for the aquatic habitats, which are described in full in **Section 8.3.4 of Chapter 8, Biodiversity** and in **Appendix A.8.20 (Results of the 2014 N6 Galway City Transport Project Aquatic Habitat Surveys)**.

Where relevés were taken in the field, the reference codes are provided in the Key Species column (e.g. EC03 R1). These relevé codes refer to the full species lists which are provided in **Appendix A.8.19.4**.

## Habitat Species Lists – Areas between the River Corrib and Lackagh Quarry

**Table A.8.19.3** presents the species lists for those habitat areas along the proposed road development that lie between the River Corrib and Lackagh Quarry. This excludes habitat areas within the ecological sites EC33 and EC36 (which are described separately in **Appendix A.8.19.1**). It does not include species lists for the residential habitat category (see **Section 8.3.4.34 of Chapter 8, Biodiversity**) and it also does not include species lists for the aquatic habitats, which are described in full in **Section 8.3.4 of Chapter 8, Biodiversity** and in **Appendix A.8.20 (Results of the 2014 N6 Galway City Transport Project Aquatic Habitat Surveys)**.

Where relevés were taken in the field, the reference codes are provided in the Key Species column (e.g. EC03 R1). These relevé codes refer to the full species lists which are provided in **Appendix A.8.19.4**.
