ELE400020  
Stinger

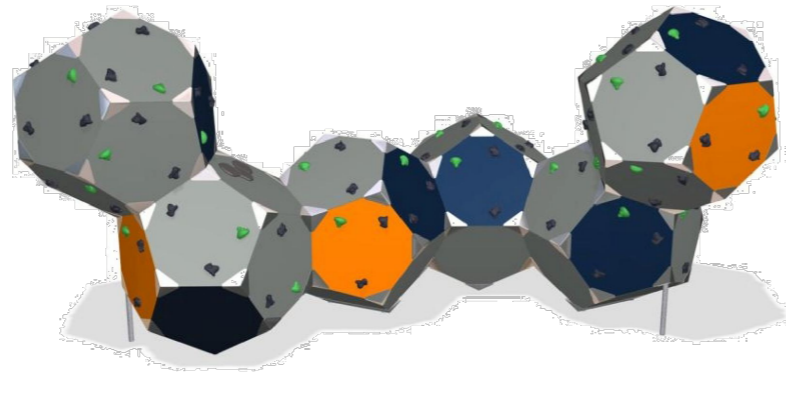

The Stinger will bring a buzz and plenty of smiles as children mount the curved form of the pod and hold on for a rocking fun time. Leaning from one side to the other will be a breeze when they place their feet on the sturdy footrest and their hands on the controls, imagining intergalactic chases and zipping around corners. The antenna at the back is a great manipulative tool that rattles with each movement and wags with each lunge.

Product Line	Traditional Play
Category	Springers
Age from	2 - 6
Max. fall height (CM)	60
Total height (CM)	70
Safety Zone	5.8 m2

BLX410601  
BLOOX 6

A massive climbing landscape is created out of these 6 modules. Bouldering routes in and out of angles and corners, underfoot routes and maybe changing sides on the way, provide a number of extreme climbing challenges. From the top the most complex route leads downward. Only by feeling your way from foothold to foothold, having to secure your handhold along the way, the route out of the structure from the top to groundlevel is the toughest, only to be mastered by the most skillful climbers. Here it is not necessarily the physical force that counts, but careful planning and good coordination. A mix of skills that often makes the girls better suited for the task.

Product Line	Urban Climbing
Category	BLOOX™
Age from	8 - 15
Max. fall height (CM)	300
Total height (CM)	300
Safety Zone	56.4 m2

ELE400019  
Speeder

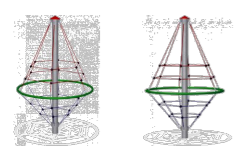

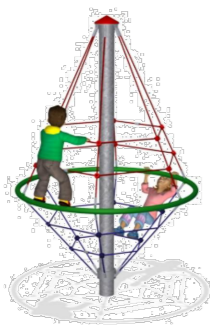

The Speeder offers a new type of riding position, the handholds are located to the sides and the front is fully open. The child climbs up, places feet on the sturdy footrests, grasps hold of the rubbery steering gear and is ready for take off.

Product Line	Traditional Play
Category	Springers
Age from	2 - 6
Max. fall height (CM)	60
Total height (CM)	60
Safety Zone	5.7 m2

KPL805
