To Whom It May Concern,

This is a letter to confirm that GoCar intends to provide 5 shared car club vehicles in the proposed Belmont development in Navan. GoCar representatives have discussed the project with representatives of Pinnacle Consulting Engineers and are excited to provide these vehicles at this location.

It is understood that the vehicles situated at this development will be shared between the residents of the development and members of the public who live nearby. GoCar will work with the estate management company to ensure that the vehicles are appropriately positioned to support 'walk-in' users.

GoCar is Ireland's leading car sharing service with over 50,000 members and over 700 cars and vans on fleet. Each GoCar which is placed in a community has the potential to replace the journeys of up to 15 private cars. The Department of Housing's Design Standards for New Apartments - Guidelines for Planning Authorities 2018 outline: "For all types of location, where it is sought to eliminate or reduce car parking provision, it is necessary to ensure provision is also to be made for alternative mobility solutions including facilities for car sharing club vehicles."

Carsharing is a sustainable service. By allowing multiple people to use the same vehicle at different times, car sharing reduces car ownership, car dependency, congestion, noise and air pollution. It frees up land which would otherwise be used for additional parking spaces. Most GoCar users only use a car when necessary, and walk and use public transport more often than car owners.

By having GoCar car club vehicles in a residential development such as this, residents will have access to pay-as-you-go driving, in close proximity to their homes, which will increase usership of the service.

I trust that this information is satisfactory. For any queries, please do not hesitate to contact me.
