Subject: Barnadivane Wind Farm - Aviation Assessment

Dear Sir or Madam,

This consultation is regarding Barnadivane Wind Farm which is located in the townlands of Lackareagh, Garranereagh and Barnadivane (Kneeves), near Teerelton, Co. Cork. The proposed wind farm comprises 6 wind turbines. I have listed the coordinates (ITM) of the turbines below and I have attached a KMZ file showing the turbine locations, which can be opened in google earth.

Fehily Timoney are currently in the process of updating the Environmental Impact Assessment Report (EIAR) in response to a request from An Bord Pleanála to provide an updated assessment given the passage of time since the submission of 2014 applications. Please read the enclosed cover letter outlining project details.

I would appreciate it if you would review the turbine locations and notify us if there are any foreseeable impacts in relation to your company's infrastructure, regarding aviation. We respectfully ask that you forward all responses **before Friday the 28th of October 2022** to provide adequate time to consider all material.

Turbine	Easting x (ITM)	Northing y (ITM)
T1	534486.5072	563861.2568
T2	534016.0003	563695.7039
T3	534198.5662	563333.788
T4	533772.0877	563159.9199
T5	533669.1692	562798.1353
T6	533695.5772	562414.011

Yours sincerely,

Sinéad Lynch

Re: Proposed Barnadivane Wind Farm updated EIAR

Dear Sir/Madam

This consultation is regarding Barnadivane Wind Farm which is located in the townlands of Lackareagh, Garranereagh and Barnadivane (Kneeves), near Teerelton, Co. Cork.

In December 2014 Barna Wind Energy (BWE) Ltd. submitted an application for the proposed Barnadivane Wind Farm. The planning reference for this application was CCC Pl. Ref. 14/6760. The proposed wind farm comprised 6 turbines with a tip height of 131 m, a meteorological mast, access roads and hardstands, a new access junction and improvements to the public road, a temporary compound, a borrow pit, underground electrical cables and ancillary infrastructure. An Environmental Impact Statement (EIS) was submitted as part of the application. The applicant received a grant of permission by Cork County Council and was appealed to An Bord Pleanála (Ref: PL04.245824). The decision was quashed by An Bord Pleanála under appeal in 2016 and 2017, and annulled in 2019 (ABP PL04.248153).

In December 2014, a separate planning application for the proposed substation was submitted to Cork County Council (Pl. Ref. 14/557). A Planning and Environmental Report was submitted as part of the application. The substation was to replace the substation granted under CCC Pl. Ref. 05/5907 which was extended under CCC Pl. Ref. 11/6605, and ABP PL04.219620. The decision was quashed by ABP under appeal in 2016 and 2017 (ABP PL04.244439), and annulled in 2019 (ABP PL04.248152).

New appeals were lodged to ABP for the wind farm site (PL04.308210) and the substation (PL04.308208). This EIAR has been produced in response to a request from An Bord Pleanála to provide an updated assessment given the passage of time since the submission of 2014 applications.

This letter is part of the consultation process for the project's updated Environmental Impact Assessment Report (EIAR). As part of the consultation process, we would be interested in receiving any comments on impacts of the proposed development, regarding aviation. We respectfully ask that you forward all responses before the **Friday the 28th of October 2022** to provide adequate time to consider all material. Your response may be forwarded by email or by post to the address below.

Subject: Barnadivane Wind Farm - Telecommunications Assessment

Greetings,

This consultation is regarding Barnadivane Wind Farm which is located in the townlands of Lackareagh, Garranereagh and Barnadivane (Kneeves), near Teerelton, Co. Cork. The proposed wind farm comprises 6 wind turbines. Fehily Timoney are currently in the process of updating the Environmental Impact Assessment Report (EIAR) in response to a request from An Bord Pleanála to provide an updated assessment given the passage of time since the submission of 2014 applications, see enclosed letter for further details.

As part of the telecommunications impact assessment we have been prompted to contact telecommunications companies operating in the area of the project site.

Wind turbines have potential to interfere with telecommunications and broadband services if built in proximity to or between links. I have listed the coordinates (ITM) of the turbines below and I have attached a KMZ file which can be opened in google earth.

I would appreciate it if you would review the turbine locations and notify us if there are any foreseeable impacts in relation to your company's infrastructure. We respectfully ask that you forward all responses **before Friday the 28th of October 2022** to provide adequate time to consider all material.

If you have any further queries please do not hesitate to contact me.

Re: Proposed Barnadivane Wind Farm updated EIAR

Dear Sir/Madam

This consultation is regarding Barnadivane Wind Farm which is located in the townlands of Lackareagh, Garranereagh and Barnadivane (Kneeves), near Teerelton, Co. Cork.

In December 2014 Barna Wind Energy (BWE) Ltd. submitted an application for the proposed Barnadivane Wind Farm. The planning reference for this application was CCC Pl. Ref. 14/6760. The proposed wind farm comprised 6 turbines with a tip height of 131 m, a meteorological mast, access roads and hardstands, a new access junction and improvements to the public road, a temporary compound, a borrow pit, underground electrical cables and ancillary infrastructure. An Environmental Impact Statement (EIS) was submitted as part of the application. The applicant received a grant of permission by Cork County Council and was appealed to An Bord Pleanála (Ref: PL04.245824). The decision was quashed by An Bord Pleanála under appeal in 2016 and 2017, and annulled in 2019 (ABP PL04.248153).

In December 2014, a separate planning application for the proposed substation was submitted to Cork County Council (Pl. Ref. 14/557). A Planning and Environmental Report was submitted as part of the application. The substation was to replace the substation granted under CCC Pl. Ref. 05/5907 which was extended under CCC Pl. Ref.11/6605, and ABP PL04.219620. The decision was quashed by ABP under appeal in 2016 and 2017 (ABP PL04.244439), and annulled in 2019 (ABP PL04.248152).

New appeals were lodged to ABP for the wind farm site (PL04.308210) and the substation (PL04.308208). This EIAR has been produced in response to a request from An Bord Pleanála to provide an updated assessment given the passage of time since the submission of 2014 applications.

As part of the consultation process, we would be interested in receiving any comments on impacts of the proposed development, regarding telecommunications. We respectfully ask that you forward all responses before the Friday the 28th of October 2022 to provide adequate time to consider all material. Your response may be forwarded by email or by post to the address below.
