

# Barnadivane Wind Farm

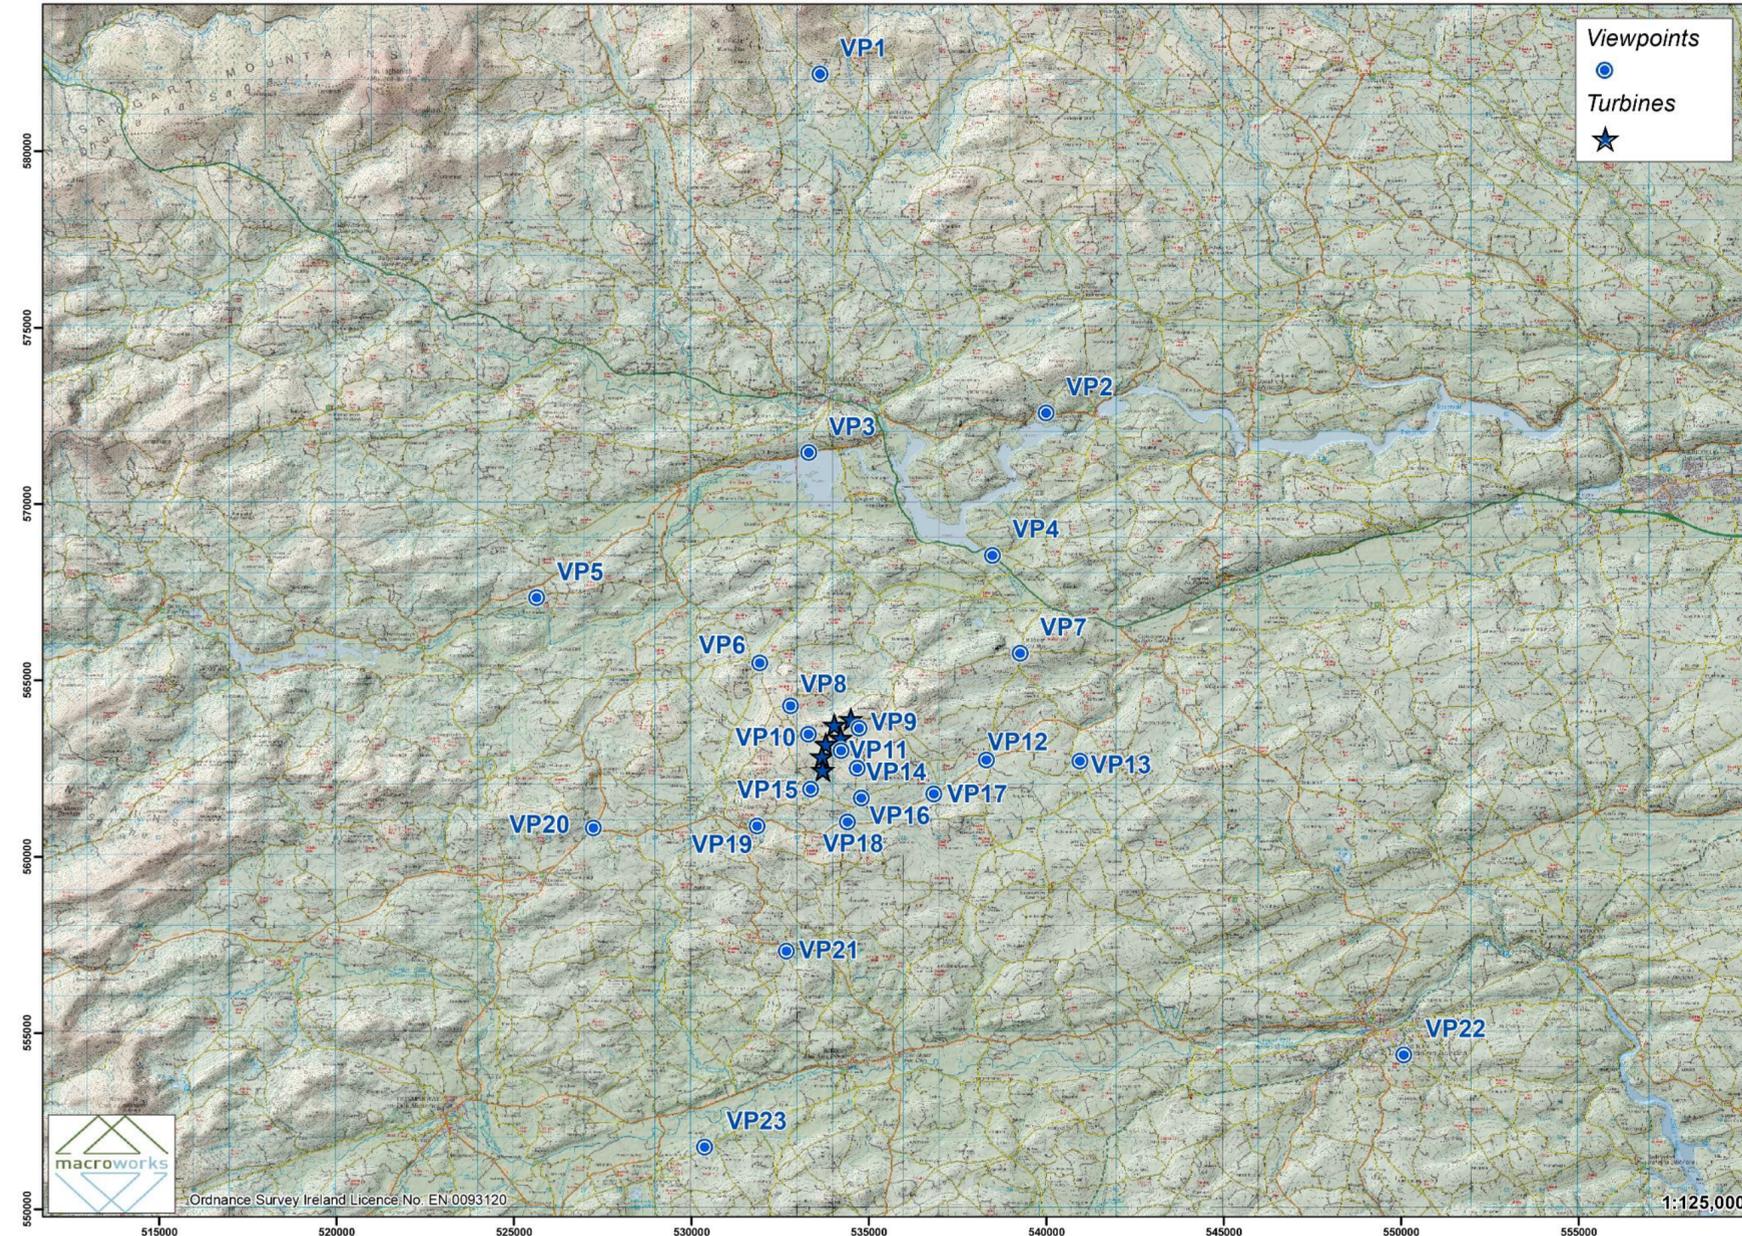

## Appendix 8.3: LVIA Photomontages Book 1: VP1 - VP11

This book contains imagery for the  
viewpoints chosen for the LVIA study

February 2023

Viewpoint locations selected for the Barnadivane Wind Farm project

**VP1: Local road at Maulnahorna**

Page 1: Baseline (Contextual Wireline and Photo)  
Page 2: Wireline  
Page 3: Photomontage

**VP2: R681 at Coolalta**

Page 1: Baseline (Contextual Wireline and Photo)  
Page 2: Wireline  
Page 3: Photomontage

**VP3: R584 east of the Gearagh at Sleveen West**

Page 1: Baseline (Contextual Wireline and Photo)  
Page 2: Wireline  
Page 3: Photomontage

**VP4: N22 at Ballytrasna**

Page 1: Baseline (Contextual Wireline and Photo)  
\*Please Note: The proposed wind farm is not visible from this viewpoint as it is completely screened by existing vegetation and/or terrain

**VP5: Local road at Inchinaneave**

Page 1: Baseline (Contextual Wireline and Photo)  
Page 2: Wireline  
Page 3: Photomontage

**VP6: Local road at Teerelton**

Page 1: Baseline (Contextual Wireline and Photo)  
\*Please Note: The proposed wind farm is not visible from this viewpoint as it is completely screened by existing vegetation and/or terrain

**VP7: Local graveyard at Kilmurry**

Page 1: Baseline (Contextual Wireline and Photo)  
Page 2: Wireline  
Page 3: Photomontage

**VP8: Local road at Knockane**

Page 1: Baseline (Contextual Wireline and Photo)  
Page 2: Wireline  
Page 3: Photomontage

**VP9: Local road at Lackareagh**

Page 1: Baseline (Contextual Wireline and Photo)  
Page 2: Baseline (Contextual Wireline and Photo)  
Page 3: Contextual Photomontage and Contextual Wireline  
Page 4: Wireline

How photomontages are presented for each viewpoint

Sheet 1: 90° Baseline panorama and matching wireline

What is Displayed

90° Baseline Panorama Photograph and matching Cumulative Wireline (Cylindrical Projection - to be viewed curved):

The top image depicts a 90° (included angle) Baseline panorama generated from captured photography.

The bottom image depicts a 90° (included angle) matching computer generated wireline. This image includes the proposed wind farm development and includes other cumulative wind farm developments (existing and/or permitted and/or proposed wind farm developments in the public domain). Extent bars indicate the extent of the 53.5° Panoramic Photomontage/Wireline Views within the depicted 90° Baseline views.

Information relating to the viewpoint, proposed development and photography capture are included. A small thumbnail map is included which indicates the location of the viewpoint and the direction and extent of the depicted view. A coloured legend referencing turbines are also included to help distinguish the proposed turbines from the other cumulative turbines.

Rationale

As required by the SNH guidelines, the purpose of the baseline panorama and wireline is to provide wider landscape and visual context to help the viewer understand where development sits within the wider landscape. The wireline also illustrates cumulative effects and provides the viewer with the full cumulative context. The baseline panorama is not intended to represent how large or small the turbines will appear in reality or how close they will appear to the viewer.

Sheet 2 (provided where necessary): Contextual Panoramic Photomontage View (120° - 180°)

Contextual Panoramic Photomontage View and matching Cumulative Wireline (ranging from 120° to 180°) (Cylindrical Projection - to be viewed curved):

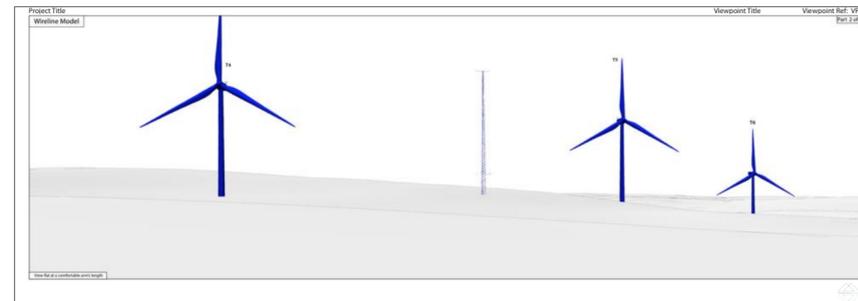

The top image demonstrates a contextual panoramic photomontage view (ranging from 120° to 180° included angle) which is generated from captured photography. It includes the proposed wind farm development and includes only other existing cumulative wind farm developments. The bottom image depicts a matching contextual panoramic computer generated wireline. This image includes the proposed wind farm development and includes other cumulative wind farm developments (existing and/or permitted and/or proposed wind farm developments in the public domain).

Extent bars indicate the extent of both the 53.5° Panoramic Photomontage/Wireline Views and the 90° Baseline Views within the depicted Contextual Panoramic Photomontage/Wireline View.

Information relating to the viewpoint, proposed development and photography capture are included. A small thumbnail map is included which indicates the location of the viewpoint and the direction and extent of the depicted view.

An additional page not required by the guidelines, this contextual photomontage/wireline view is included to give a broader context to the viewer. It is generally included where there are multiple 90° and 53.5° views, which are required by the guidelines, for a particular viewpoint.

Sheet 3: 53.5° Wireline View

53.5° Wireline View (Planar Projection - to be viewed flat)

This image shows a 53.5° (included angle) Wireline View which matches the 53.5° Panoramic Photomontage View. It includes the proposed wind farm development and includes other cumulative wind farm developments (existing and/or permitted and/or proposed wind farm developments in the public domain). Wirelines are computer-generated images which depict the 'bare ground' terrain along with the proposed wind farm development and other cumulative wind farms developments within the depicted view. They are generated in GIS (Geographic Information System) mapping software based from a DTM (Digital Terrain Model).

Information relating to the viewpoint, proposed development and photography capture are included. A small thumbnail map is included which indicates the location of the viewpoint and the direction and extent of the depicted view. A coloured legend referencing turbines are also included to help distinguish the proposed turbines from the other cumulative turbines.

As required by the SNH guidelines, the A1 wireline is intended to provide the best impression of the apparent size of the turbines and the distance to the development from the viewpoint location. It illustrates the 'bare ground' visibility and a provide a clear view of the wind farm to inform the assessment. **Only images at this scale, held at a comfortable arms length, should be used when trying to understand the size of the development and its distance from the viewpoint.**

Sheet 4: 53.5° Panoramic Photomontage View

53.5° Panoramic Photomontage View (Planar Projection - to be viewed flat):

This image demonstrates a 53.5° (included angle) photomontage generated from captured photography. It includes the proposed wind farm development and includes only other existing cumulative wind farm developments.

Information relating to the viewpoint, proposed development and photography capture are included. A small thumbnail map is included which indicates the location of the viewpoint and the direction and extent of the depicted view.

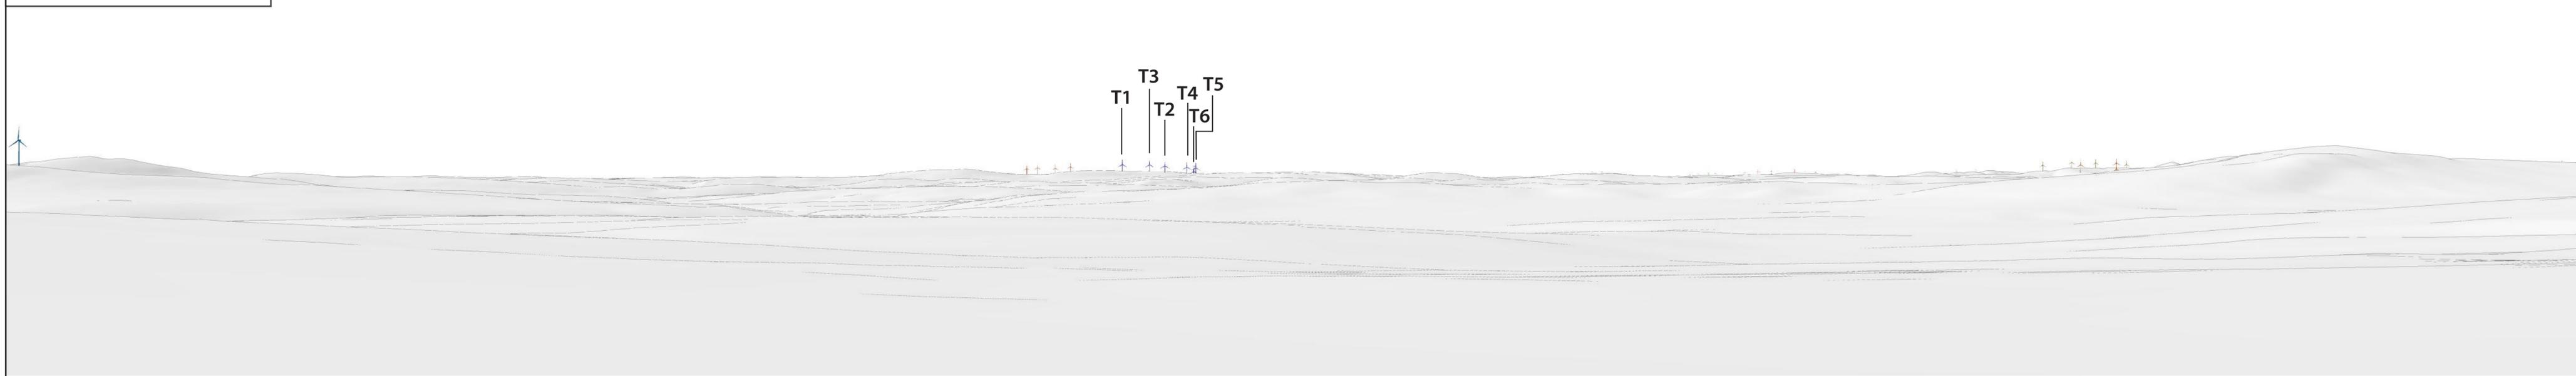

As required by the SNH guidelines, the A1 panorama is intended to provide the best impression of the apparent size of the turbines and the distance to the development from the viewpoint location. **Only images at this scale, held at a comfortable arms length, should be used when trying to understand the size of the development and its distance from the viewpoint.**

Cumulative Wireline View

Extent of 53.5° planar panorama

This cylindrical projection panorama has been captured, prepared and presented in accordance with the guidance set out in the Scottish Natural Heritage 2017 guidance 'Visual Representation of Wind Farms'.

- Proposed Turbines
- Kilpatrick Turbine
- Bawnmore Turbines
- Derragh Turbines
- Carrigierk Turbines
- Kilvinane Turbines
- Currabwee Turbines
- Coomatallin Turbines
- Garranereagh Turbines
- Carriganinna Turbines
- Cleanrath Turbines
- Shelmore Turbines
- Dromleena Turbines
- Knockeenboy Turbines
- Proposed on-site substation - Planning Ref: PL04.308208

National Grid Coordinate (ITM)  
 Easting: 533622  
 Northing: 582190  
 Elevation: 244.2 m

Horizontal Field of View: 90 ° (cylindrical projection)  
 Principal Distance: 522 mm  
 Turbine Tip Height: 131 m  
 Turbine Hub Height: 72.5m  
 Turbine Rotor Diameter: 117m

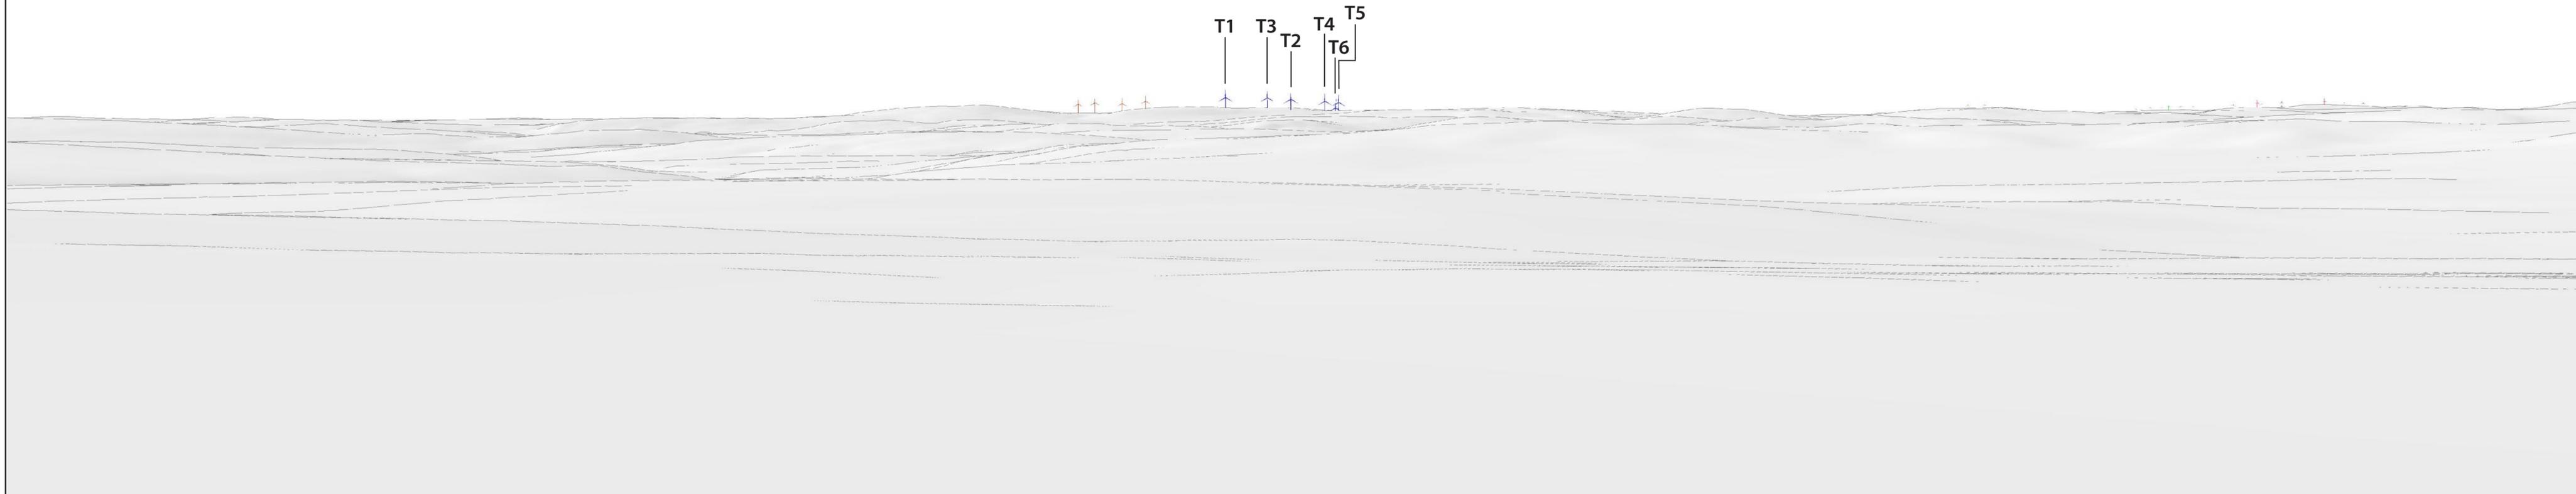

Date and Time: 09/11/2022 11:14  
 Camera: Canon 5D Mark II  
 Lens: Fixed 50mm  
 Camera Height: 1.7m (AGL)

Direction (clockwise from Grid N): 183 °  
 Distance to Nearest Visible Turbine: 18.4 km  
 Nearest Turbine: T1

Wireline Model

Part 1 of 1

View flat at a comfortable arm's length

This planar projection panoramic model has been prepared and presented in accordance with the guidance set out in the Scottish Natural Heritage 2017 guidance 'Visual Representation of Wind Farms'.

- Proposed Turbines
- Kilpatrick Turbine
- Bawnmore Turbines
- Derragh Turbines
- Carrigarierk Turbines
- Kilvinane Turbines
- Currawee Turbines
- Coomatallin Turbines
- Garranreagh Turbines
- Carriganinna Turbines
- Cleanrath Turbines
- Shelymore Turbines
- Dromleena Turbines
- Knockeenboy Turbines
- Proposed on-site substation - Planning Ref: PL04.308208

National Grid Coordinate (ITM)  
 Easting: 533622  
 Northing: 582190  
 Elevation: 244.2 m

Horizontal Field of View: 53.5 ° (planar projection)  
 Principal Distance: 812.5 mm  
 Paper size: (half A1) 841 x 297 mm  
 Correct printed image size: 820 x 260 mm

Date and Time: 09/11/2022 11:14  
 Camera: Canon 5D Mark II  
 Lens: Fixed 50mm  
 Camera Height: 1.7m (AGL)

Direction (clockwise from Grid N): 179 °  
 Distance to Nearest Visible Turbine: 18.4 km  
 Nearest Turbine: T1

Photomontage

Part 1 of 1

View flat at a comfortable arm's length

Please Note: Due to adverse weather conditions, wireline terrain has been used to augment the image to reveal distant terrain and turbines.

This planar projection panorama has been captured, prepared and presented in accordance with the guidance set out in the Scottish Natural Heritage 2017 guidance 'Visual Representation of Wind Farms'.

- Garranereagh Turbines
- Carriganinna Turbines
- Cleanrath Turbines
- Shelymore Turbines
- Dromleena Turbines
- Knockeenboy Turbines
- Proposed on-site substation - Planning Ref: PL04.308208

National Grid Coordinate (ITM)  
 Easting: 534210  
 Northing: 563011  
 Elevation: 265.9 m

Horizontal Field of View: 53.5 ° (planar projection)  
 Principal Distance: 812.5 mm  
 Paper size: (half A1) 841 x 297 mm  
 Correct printed image size: 820 x 260 mm

Date and Time: 04/11/2022 11:32  
 Camera: Canon 5D Mark II  
 Lens: Fixed 50mm  
 Camera Height: 1.7m (AGL)

Direction (clockwise from Grid N): 160 °  
 Distance to Nearest Visible Turbine: 0.3 km  
 Nearest Turbine: T3

Photomontage

Part 1 of 4

View flat at a comfortable arm's length

This planar projection panorama has been captured, prepared and presented in accordance with the guidance set out in the Scottish Natural Heritage 2017 guidance 'Visual Representation of Wind Farms'.
