

Legend

Application Boundary

Existing Trees.
To be retained with reference to arborists report.

Existing Native Hedgerow.
To be retained with reference to arborists report.

Proposed Native Woodland.
To create a biodiverse native habitat around the perimeter and throughout the site. New planting designed to create a network of ecological corridors linking with existing vegetation to be retained. Planted as transplants with 10% of trees as 6-8 cmg, min 2m high. As the planting matures a visual screen will be created. Refer to planting schedule

Proposed Native Woodland Understory Planting.
To create a biodiverse native habitat around the perimeter and throughout the site. New planting designed to create a network of ecological corridors linking with existing vegetation to be retained. Native hedgerow and woodland species planted as transplants to provide low understory planting to copes of trees.

Proposed Medium or Large Deciduous Tree Planting
To be planted at heights required to give an immediate impact and create a visual screen where required. Refer to planting schedule for specific specifications

Proposed Native Coniferous Tree Planting
To be planted at heights required to give an immediate impact and create a visual screen where required. To complement and strengthen the screening level provided by the large deciduous tree planting. Refer to planting schedule for specific specifications

Wildflower Meadow.
Area to be managed as a wildflower meadow to improve the biodiversity of the local environment and reduce maintenance operations

Grass Seeding
Area to be managed as ornamental lawn/amenity grass.

Permitted Boundary Fence
1.8m high rigid mesh fence to architects' detail and specification. Small access points provided to accommodate movement of mammals through the site.

Existing Boundary Retained
Existing stub wall and railing to site boundary to be retained.

Boundary of Permitted Development
SDCC Reg. Ref. No - SD20A/0121

Proposed 110kV Clutterland to Kilmahud Grid Connection

Proposed 110kV Clutterland H4 to Castlebaggot H18 Grid Connection
