

NOTE:
Changes to landscape treatment from permitted landscape scheme (planning ref. SD18A/0134) to current scheme as follows:
Original scheme included double line of native trees to north of substation, removed under current application due to Eirgrid requirements. Gravel trim and grass verge proposed under current application.

Frontage Treatment
Grass verge provides a visually pleasing frontage to public footpath.

NOTE:
Changes to landscape treatment from permitted landscape scheme (planning ref. SD18A/0134) to current scheme as follows:
Original scheme included double line of native trees - reduced to single line of native trees under this application.
Existing vegetation originally to be retained is now to be removed to accommodate development. Grass verge now proposed to accommodate 6m wide offset from security fence (As per Eirgrid requirements)

Proposed Visual Screening Belt
Single line of fastigate native trees provide a visual screen to the development and create a biodiverse native habitat around the perimeter and throughout the site. Refer to planting schedule.

Security Buffer
6m perimeter area clear of any planting provided from line of compound fence, as per Eirgrid requirements.

Legend

- Site Application Boundary
- Proposed Medium Sized Deciduous Tree Planting
To be planted at heights required to give an immediate impact and create a visual screen where required. Refer to planting schedule for specifications.
- Grass Verge
- Public Footpath
- Crushed Stone Surface
- Fencing to Sub-station
Refer to architects drawings for details and specification.

Planting Schedule

Nr	Plant Name	Ht/Sprnd	Girth	Root	Notes
Trees					
6	<i>Betula pendula</i> 'Joes'	300-350cm	10-12cm	RB	feathered from base
6	<i>Quercus robur</i> 'Fastigiata Koster'	300-350cm	10-12cm	RB	feathered from base
6	<i>Sorbus aucuparia</i>	300-350cm	10-12cm	RB	feathered from base
