

Comparison of Cumulative and Individual Wind Farms Contributions

Comparison of cumulative and individual wind farm derived daytime and night-time levels of $L_{A90,10\text{-min}}$ at a selection of receivers that exceeded the omni-directional noise limits (H217 to H222).

Table 1 Comparison of Cumulative and Individual Wind Farm Derived Daytime Levels of $L_{A90,10\text{-min}}$ for Various Wind Speeds

| NSL Ref. | Parameter | Derived $L_{A90,10\text{-min}}$ Levels (dB) at Various Standardised 10m Height Wind Speeds | | | | | | |
|----------|------------------------------------|--|----|------|------|------|----|----|
| | | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| | Daytime Criterion | 40 | 40 | 40 | 40 | 40 | 45 | 45 |
| H217 | Cumulative Predicted | -- | -- | -- | 41.2 | 41.9 | -- | -- |
| | Daytime Excess | -- | -- | -- | 1.2 | 1.9 | -- | -- |
| | Castlebanny Predicted | -- | -- | -- | 21.1 | 21.8 | -- | -- |
| | Ballymartin / Smithstown Predicted | -- | -- | -- | 41.2 | 41.8 | -- | -- |
| | Predicted Level Difference | -- | -- | -- | 20.1 | 20.0 | -- | -- |
| | Castlebanny Contribution < 10 dB | -- | -- | -- | Yes | Yes | -- | -- |
| H218 | Cumulative Predicted | -- | -- | -- | 41.8 | 42.5 | -- | -- |
| | Daytime Excess | -- | -- | -- | 1.8 | 2.5 | -- | -- |
| | Castlebanny Predicted | -- | -- | -- | 20.8 | 21.5 | -- | -- |
| | Ballymartin / Smithstown Predicted | -- | -- | -- | 41.8 | 42.4 | -- | -- |
| | Predicted Level Difference | -- | -- | -- | 21.0 | 20.9 | -- | -- |
| | Castlebanny Contribution < 10 dB | -- | -- | -- | Yes | Yes | -- | -- |
| H219 | Cumulative Predicted | -- | -- | 40.1 | 42.7 | 43.4 | -- | -- |
| | Daytime Excess | -- | -- | 0.1 | 2.7 | 3.4 | -- | -- |
| | Castlebanny Predicted | -- | -- | 20.1 | 20.7 | 21.4 | -- | -- |
| | Ballymartin / Smithstown Predicted | -- | -- | 40.1 | 42.7 | 43.4 | -- | -- |
| | Predicted Level Difference | -- | -- | 20.0 | 22.0 | 22.0 | -- | -- |
| | Castlebanny Contribution < 10 dB | -- | -- | Yes | Yes | Yes | -- | -- |
| H220 | Cumulative Predicted | -- | -- | 41.8 | 44.3 | 45.0 | -- | -- |
| | Daytime Excess | -- | -- | 1.8 | 4.3 | 5.0 | -- | -- |
| | Castlebanny Predicted | -- | -- | 22.9 | 23.5 | 24.2 | -- | -- |
| | Ballymartin / Smithstown Predicted | -- | -- | 41.7 | 44.3 | 45.0 | -- | -- |
| | Predicted Level Difference | -- | -- | -- | 20.8 | 20.8 | -- | -- |
| | Castlebanny Contribution < 10 dB | -- | -- | -- | Yes | Yes | -- | -- |
| H221 | Cumulative Predicted | -- | -- | -- | 40.8 | 41.5 | -- | -- |
| | Daytime Excess | -- | -- | -- | 0.8 | 1.5 | -- | -- |
| | Castlebanny Predicted | -- | -- | -- | 24.1 | 24.9 | -- | -- |
| | Ballymartin / Smithstown Predicted | -- | -- | -- | 40.7 | 41.4 | -- | -- |
| | Predicted Level Difference | -- | -- | -- | 16.6 | 16.5 | -- | -- |
| | Castlebanny Contribution < 10 dB | -- | -- | -- | Yes | Yes | -- | -- |
| H222 | Cumulative Predicted | -- | -- | -- | 40.2 | 40.9 | -- | -- |
| | Daytime Excess | -- | -- | -- | 0.2 | 0.9 | -- | -- |
| | Castlebanny Predicted | -- | -- | -- | 24.0 | 24.8 | -- | -- |
| | Ballymartin / Smithstown Predicted | -- | -- | -- | 40.1 | 40.8 | -- | -- |
| | Predicted Level Difference | -- | -- | -- | 16.1 | 16.0 | -- | -- |
| | Castlebanny Contribution < 10 dB | -- | -- | -- | Yes | Yes | -- | -- |

Table 2 Comparison of Cumulative and Individual Wind Farm Derived Night-Time Levels of $L_{A90,10\text{-min}}$ for Various Wind Speeds

| NSL Ref. | Parameter | Derived $L_{A90, 10\text{-min}}$ Levels (dB) at Various Standardised 10m Height Wind Speeds | | | | | | |
|----------|------------------------------------|---|----|----|------|------|------|------|
| | | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| | Night-Time Criterion | 43 | 43 | 43 | 43 | 43 | 43 | 43 |
| H219 | Cumulative Predicted | -- | -- | -- | -- | 43.4 | 43.4 | 43.4 |
| | Night-Time Excess | -- | -- | -- | -- | 0.4 | 0.4 | 0.4 |
| | Castlebanny Predicted | -- | -- | -- | -- | 21.4 | 21.5 | 21.5 |
| | Ballymartin / Smithstown Predicted | | | | | 43.4 | 43.4 | 43.4 |
| | Predicted Level Difference | -- | -- | -- | -- | 22.0 | 21.9 | 21.9 |
| | Castlebanny Contribution < 10 dB | -- | -- | -- | -- | Yes | Yes | Yes |
| H220 | Cumulative Predicted | -- | -- | -- | 44.3 | 45.0 | 45.0 | 45.0 |
| | Night-Time Excess | -- | -- | -- | 1.3 | 2.0 | 2.0 | 2.0 |
| | Castlebanny Predicted | -- | -- | -- | 23.5 | 24.2 | 24.3 | 24.3 |
| | Ballymartin / Smithstown Predicted | -- | -- | -- | 44.3 | 45.0 | 45.0 | 45.0 |
| | Predicted Level Difference | -- | -- | -- | 20.8 | 20.8 | 20.7 | 20.7 |
| | Castlebanny Contribution < 10 dB | -- | -- | -- | Yes | Yes | Yes | Yes |
