The above-mentioned case is a request to enter into pre-application consultations pursuant to section 47B of the Transport (Railway Infrastructure) Act 2001, as amended, in respect of the proposed replacement of seven number manned level crossings on the main Dublin to Cork Railway Line in County Limerick and County Cork.

In its letter dated the 13th August, 2019, the prospective applicant has outlined the nature of the proposed development and the options being considered in relation to this. The prospective applicant also states that the preliminary design of the proposed development is being advanced and an EIA Scoping Report is also being prepared.

A site location plan has been included with the request.

File submitted for comments.
