### *Planning Application Form*

#### **PLANNING APPLICATION FORM**

#### **BEFORE FILLING OUT THIS FORM PLEASE NOTE THE FOLLOWING**

Failure to complete this form or attach the necessary documentation, or the submission of incorrect information or omission of required information will lead to the invalidation of your application. Therefore please ensure that each section of this application form is fully completed and signed, entering n/a (not applicable) where appropriate, and that all necessary documentation is attached to the application form.

#### **ADDITIONAL INFORMATION**

It should be noted that each planning authority has its own development plan, which sets out local development policies and objectives for its own area. The authority may therefore need supplementary information (i.e. other than that required in this form) in order to determine whether the application conforms with the development plan and may request this on a supplementary application form.

Failure to supply the supplementary information will not invalidate your planning application but may delay the decision-making process or lead to a refusal of permission. Therefore applicants should contact the relevant planning authority to determine what local policies and objectives would apply to the development proposed and whether additional information is required.

#### **OTHER STATUTORY CODES**

An applicant will not be entitled solely by reason of a planning permission to carry out the development. The applicant may need other consents, depending on the type of development. For example, all new buildings, extensions and alterations to, and certain changes of use of existing buildings must comply with building regulations, which set out basic design and construction requirements. Also any works causing the deterioration or destruction of the breeding and resting places of bats, otters, natterjack toads, Kerry slugs and certain marine animals constitute a criminal offence unless covered by a derogation licence issued by the Minister for Culture, Heritage and the Gaeltacht (pursuant to Article 16 of the Habitats Directive).

#### **DATA PROTECTION**

It is the responsibility of persons or entities wishing to use any personal data on a planning application form for direct marketing purposes to be satisfied that

they may do so legitimately under the requirements of the Data Protection Acts 1988 to 2018. The Office of the Data Protection Commissioner states that the sending of marketing material to individuals without consent may result in action by the Data Protection Commissioner against the sender including prosecution.

- A certificate of exemption from the requirements of Part V

***or***

- A copy of the application submitted for a certificate of exemption.

**Where the application is for residential development that is not subject to Part V of the 2000 Act by virtue of section 96(13) of the Act:**

- Information setting out the basis on which section 96(13) is considered to apply to the development.

**Where the disposal of wastewater for the proposed development is other than to a public sewer:**

- Information on the on-site treatment system proposed and evidence as to the suitability of the site for the system proposed.

**Where the application refers to a protected structure/ proposed protected structure/ or the exterior of a structure which is located within an architectural conservation area (ACA):**

- Photographs, plans and other particulars necessary to show how the development would affect the character of the structure.

**Applications that refer to a material change of use or retention of such a material change of use:**

- Plans (including a site or layout plan and drawings of floor plans, elevations and sections which comply with the requirements of article 23) and other particulars required describing the works proposed.

**Where an application requires an Environmental Impact Assessment Report:**

- An Environmental Impact Assessment Report, and
- A copy of the confirmation notice received from the EIA portal in accordance with article 97B(2) of the permission regulations

**Applications that are exempt from planning fees:**

- Proof of eligibility for exemption<sup>18</sup>

### Directions for completing this form

1. Grid reference in terms of the Irish Transverse Mercator.
2. 'The applicant' means the person seeking the planning permission, not an agent acting on his or her behalf.
3. Where the plans have been drawn up by a firm/company the name of the person primarily responsible for the preparation of the drawings and plans, on behalf of that firm/company, should be given.
4. A brief description of the nature and extent of the development, including reference to the number and height of buildings, protected structures, etc.
5. Gross floor space means the area ascertained by the internal measurement of the floor space on each floor of a building, that is, floor areas must be measured from inside the external wall.
6. Where the existing land or structure is not in use please state most recent authorised use of the land or structure.
7. Part V of the Planning and Development Act 2000 applies where—
  - the land is zoned for residential use or for a mixture of residential and other uses,
  - there is an objective in the Development Plan for the area for a percentage of the land to be made available for social and/or affordable housing, and
  - the proposed development is not exempt from Part V.
8. Under section 97 of the Planning and Development Act 2000, applications involving development of 9 or fewer houses or development on land of less than 0.1 hectare may be exempt from Part V.
9. Under section 96(13) of the Planning and Development Act 2000, Part V does not apply to certain housing developments by approved voluntary housing bodies, certain conversions, the carrying out of works to an existing house or the development of houses under an agreement made under section 96 of the Act.
10. The Record of Monuments and Places, under section 12 of the National Monuments Amendment Act 1994, is available, for each county, in the local authorities and public libraries in that county. Please note also that if the proposed development affects or is close to a national monument which, under the National Monuments Acts 1930 to 2004, is in the ownership or guardianship of the Minister for Culture, Heritage and the Gaeltacht or a local authority, or is the subject of a preservation order or a temporary preservation order, a separate statutory consent is required, under the National Monuments Acts, from the Minister for Culture, Heritage and the Gaeltacht. For information on whether national monuments are in the ownership or guardianship of the Minister for Culture, Heritage and the

Gaeltacht or a local authority or are the subject of preservation orders, contact the National Monuments Section, Department of Culture, Heritage and the Gaeltacht.

11. An Environmental Impact Assessment Report (EIAR) and the confirmation notice from the EIA portal are required to accompany a planning application for development of a class set out in Schedule 5 of the Planning and Development Regulations 2001-2018 which equals or exceeds, as the case may be, a limit, quantity or threshold set for that class of development. An EIAR and confirmation notice from the EIA portal will also be required by the planning authority in respect of sub-threshold development where the authority considers that the development would be likely to have significant effects on the environment (article 103).
12. An appropriate assessment of proposed developments is required in cases where it cannot be excluded that the proposed development would have a significant effect on a European site. It is the responsibility of the planning authority to screen proposed developments to determine whether an appropriate assessment is required and where the authority determines that an appropriate assessment is required, the authority will normally require the applicant to submit a Natura impact statement (NIS). Where the applicant considers that the proposed development is likely to have a significant effect on a European site it is open to him/her to submit a NIS with the planning application.
13. The appeal must be determined or withdrawn before another similar application can be made.
14. A formal pre-application consultation may only occur under Section 247 of the Planning and Development Act 2000. An applicant should contact his or her planning authority if he/she wishes to avail of a pre-application consultation. In the case of residential development to which Part V of the 2000 Act applies, applicants are advised to avail of the pre-application consultation facility in order to ensure that a Part V agreement in principle can be reached in advance of the planning application being submitted.
15. The list of approved newspapers, for the purpose of giving notice of intention to make a planning application, is available from the planning authority to which the application will be submitted.
16. All plans, drawings and maps submitted to the planning authority should be in accordance with the requirements of the Planning and Development Regulations 2001-2018.
17. The location of the site notice(s) should be shown on the site location map.
18. See Schedule 9 of the Planning and Development Regulations 2001. If a reduced fee is tendered, details of previous relevant payments and planning permissions should be given. If exemption from payment of fees is being claimed under article 157 of the 2001 Regulations, evidence to prove eligibility for exemption should be submitted.”.

## ITEM 9. DESCRIPTION OF PROPOSED DEVELOPMENT

The development consists of further development of a quarry over an area of 26.87 ha. that largely coincides with an existing operational quarry void currently at an average working depth of approximately 173 mAOD and final floor of approximately 150 mAOD. It is proposed to laterally extend the existing quarry void to the north by approximately 4.1 ha. over a total of 5.16 ha. to accommodate screening berms and to also further extract the existing quarry void to a final average depth of 150 mAOD, east and west of a centrally located existing administration and processing plant area. A restoration plan to return the application site and existing administration and processing plant area to agricultural and amenity use upon completion of proposed extraction has been prepared and is proposed to be implemented upon cessation of extraction. The proposal duration is 20 years to reflect anticipated extraction of remaining reserve within 10 – 15 years depending on market conditions, and a further 2 - 5 years for restoration.

The existing quarry is accessed at a single location from the N7. The reserve consists of sandstone (greywacke) and is currently extracted by blasting and mechanical means. The excavated material is crushed at the working face by mobile plant and transported to a central plant area for washing, grading and processing. The further development of the quarry relates to further extraction only and is to utilise the extant existing administration and processing plant area and quarry access that are included in a concurrent application for substitute consent.

The application site is contained within a quarry area registered in 2005 under S.261 and assessed in 2012 under S.261A (ref. no. SDQU05A/04) by the local planning authority. The S.261A notice was reviewed under An Bord Pleanála ref. 06S.QV.0090 resulting in a requirement for application for substitute consent accompanied by remedial Environmental Impact Assessment Report (rEIAR). That application (ref. no. PL06S.SU0068) was made in 2013 and an application to further develop that quarry (ref. no. PL06S.QD0003) was made in 2015. Those applications have been superseded By High Court Order (2018 No. 929 JR) that inter alia ordered the making of this application. This application is made concurrent with an application for substitute consent for quarrying at this location, also part of that Order.

The application is accompanied by an Environmental Impact Assessment Report (EIAR). The EIAR is for an EIA project unit over 46.14 ha. that encompasses the area of the further development of the quarry application under S.37L, the concurrent substitute consent application and the quarry as registered under S.261.

## ITEM 18. SITE HISTORY (PLANNING APPLICATIONS PREVIOUSLY MADE IN RESPECT OF THIS LAND/STRUCTURE)

Please note that this application is submitted under S37L of the Planning and Development Act, 2000 as amended and as such is for further development of a quarry as a quarry. The development proposed under this application is for further extraction only and intends to utilise the existing administration and plant processing area at the centre of the quarry site registered under S.261. That administration and plant processing area is included in a concurrent application for substitute consent.

Please see table below that sets out each of the valid planning applications related to the application site and associated administration and plant processing area, also at Table 2.1 of submitted EIAR along with those deemed invalid and other types of licenses, permits and consents.

## SITE NOTICE

### APPLICATION TO AN BORD PLEANÁLA FOR PERMISSION FOR A QUARRY UNDER SECTION 37L OF THE ACT

I, Laurence Behan intend to apply for permission under section 37L of the Planning and Development Act 2000, as amended for development at this site at Windmillhill, Rathcoole, Co. Dublin.

The development consists of further development of a quarry over an area of 26.87 ha. that largely coincides with an existing operational quarry void currently at an average working depth of approximately 173 AOD and final floor of approximately 150 mAOD. It is proposed to laterally extend the existing quarry void to the north by approximately 4.1 ha. over a total of 5.16 ha. to accommodate screening berms and to also further extract the existing quarry void to a final average depth of 150 mAOD, east and west of a centrally located existing administration and processing plant area. A restoration plan to return the application site and existing administration and processing plant area to agricultural and amenity use upon completion of proposed extraction has been prepared and is proposed to be implemented upon cessation of extraction. The proposal duration is 20 years to reflect anticipated extraction of remaining reserve within 10 – 15 years depending on market conditions, and a further 2 - 5 years for restoration.

The existing quarry is accessed at a single location from the N7. The reserve consists of sandstone (greywacke) and is currently extracted by blasting and mechanical means. The excavated material is crushed at the working face by mobile plant and transported to a central plant area for washing, grading and processing. The further development of the quarry relates to further extraction only and is to utilise the extant existing administration and processing plant area and quarry access that are included in a concurrent application for substitute consent.

The application site is contained within a quarry area registered in 2005 under S.261 and assessed in 2012 under S.261A (ref. no. SDQU05A/04) by the local planning authority. The S.261A notice was reviewed under An Bord Pleanála ref. 06S.QV.0090 resulting in a requirement for application for substitute consent accompanied by remedial Environmental Impact Assessment Report (rEiAR). That application (ref. no. PL06S.SU0068) was made in 2013 and an application to further develop that quarry (ref. no. PL06S.QD0003) was made in 2015. Those applications have been superseded By High Court Order (2018 No. 929 JR) that inter alia ordered the making of this application. This application is made concurrent with an application for substitute consent for quarrying at this location, also part of that Order.

The application is accompanied by an Environmental Impact Assessment Report (EiAR). The EiAR is for an EIA project unit over 46.14 ha. that encompasses the area of the further development of the quarry application under S.37L, the concurrent substitute consent application and the quarry as registered under S.261.

Submissions or observations may be made on the application, to An Bord Pleanála, Marlborough Street, Dublin 1, free of charge. Submissions or observations must be in writing and made within the period of 5 weeks beginning on the date of receipt of the application by An Bord Pleanála and such submissions and observations will be considered by An Bord Pleanála in making a decision on the application. An Bord Pleanála may grant the consent subject to or without conditions, or may refuse to grant it.

The application for permission may be inspected, or purchased at a fee not exceeding the reasonable cost of making a copy, at the offices of An Bord Pleanála, 64 Marlborough Street, Dublin 1, or South Dublin County Council, County Hall, Town Centre, Tallaght, Dublin 24 during their public opening hours.

# Serena keeps Grand Slam dream alive in Paris

**FORMER** world No.1 Serena Williams, chasing a record-tying 24th Grand Slam singles title, overcame a second-set blip to reach the French Open third round with a 6-3 5-7 6-1 win against Romania's Mihaela Buzarnescu yesterday.

Three-time Roland Garros champion Williams, who has been stuck on 23 major titles since 2017, one behind Margaret Court's all-

time record, went through the gears in the opening set before letting her guard down.

The 39-year-old, who is seeded seventh in Paris but has not been past the fourth round here since reaching the final in 2016, fell 4-2 behind in the second set as Buzarnescu broke for the first

time. But the American was back to her dominant self as she stole her opponent's serve in the next game and set up two break points in the 11th game. Buzarnescu kept her composure to stave them off and level for 5-5 before sealing the second set on Williams's serve.

Meanwhile, men's fifth seed Stefanos Tsitsipas strolled past Spaniard Pedro Martinez 6-3 6-4 6-3 in a scrappy contest yesterday

to reach the third round of the French Open. The Greek, who reached the semi-finals in 2020, is considered one of the main contenders to challenge Rafa Nadal for the Roland Garros title.

Elsewhere, German sixth seed Alexander Zverev blew hot and cold with his serve but had enough artillery to take down Russian qualifier Roman Safiullin 7-6(4) 6-3 7-6(1) to reach the third round.
