INTRODUCTION

1.0 OVERVIEW OF DOCUMENTS

The scheme as proposed has been designed by Henry J Lyon (as Executive Architects) along with O'Mahony Pike Architects, McCullough Mulvin Architects and O'Donnell & Tuomey Architects.

As such the Strategy and Design Statements for the site are set out across a number of documents set out as follows:

Strategy Documents -

Volume 1. Masterplan

Volume 2. Site Design Strategy

Design Statements -

**Volume 3a. Architectural Design Statement
Block B1, B2, B3, C1, C2 & D2 (Henry J Lyons)**

**Volume 3b. Architectural Design Statement
A Blocks (O'Mahoney Pike Architects)**

**Volume 3c Architectural Design Statement
Block E1 & E2 (McCullough Mulvin)**

**Volume 3d. Architectural Design Statement
Block D1 (O'Donnell + Tuomey)**

Sitewide Reports -

Volume 4. Dual Aspect Analysis Report

Volume 5. Housing Quality Assessment Report

The documents should be reviewed in order as set out above to understand the scheme principles and the development as proposed.

1.1 SUMMARY OF OVERALL PROPOSED DEVELOPMENT

The development will consist of the construction of a Build To Rent residential development set out in 12 no. blocks, ranging in height from 2 to 18 storeys, to accommodate 1614 no. apartments including a retail unit, a café unit, a crèche, and residential tenant amenity spaces. The development will include a single level basement under Blocks B2, B3 & C1, a single level basement under Block D2 and a podium level and single level basement under Block A1 to accommodate car parking spaces, bicycle parking, storage, services and plant areas. To facilitate the proposed development the scheme will involve the demolition of a number of existing structures on the site.

The proposed development sits as part of a wider Site Masterplan for the entire Holy Cross College lands which includes a permitted hotel development and future proposed GAA pitches and clubhouse.

The site contains a number of Protected Structures including The Seminary Building, Holy Cross Chapel, South Link Building, The Assembly Hall and The Ambulatory. The application proposes the renovation and extension of the Seminary Building to accommodate residential units and the renovation of the existing Holy Cross Chapel and Assembly Hall buildings for use as residential tenant amenity. The wider Holy Cross College lands also includes Protected Structures including The Red House and the Archbishop's House (no works are proposed to these Structures).

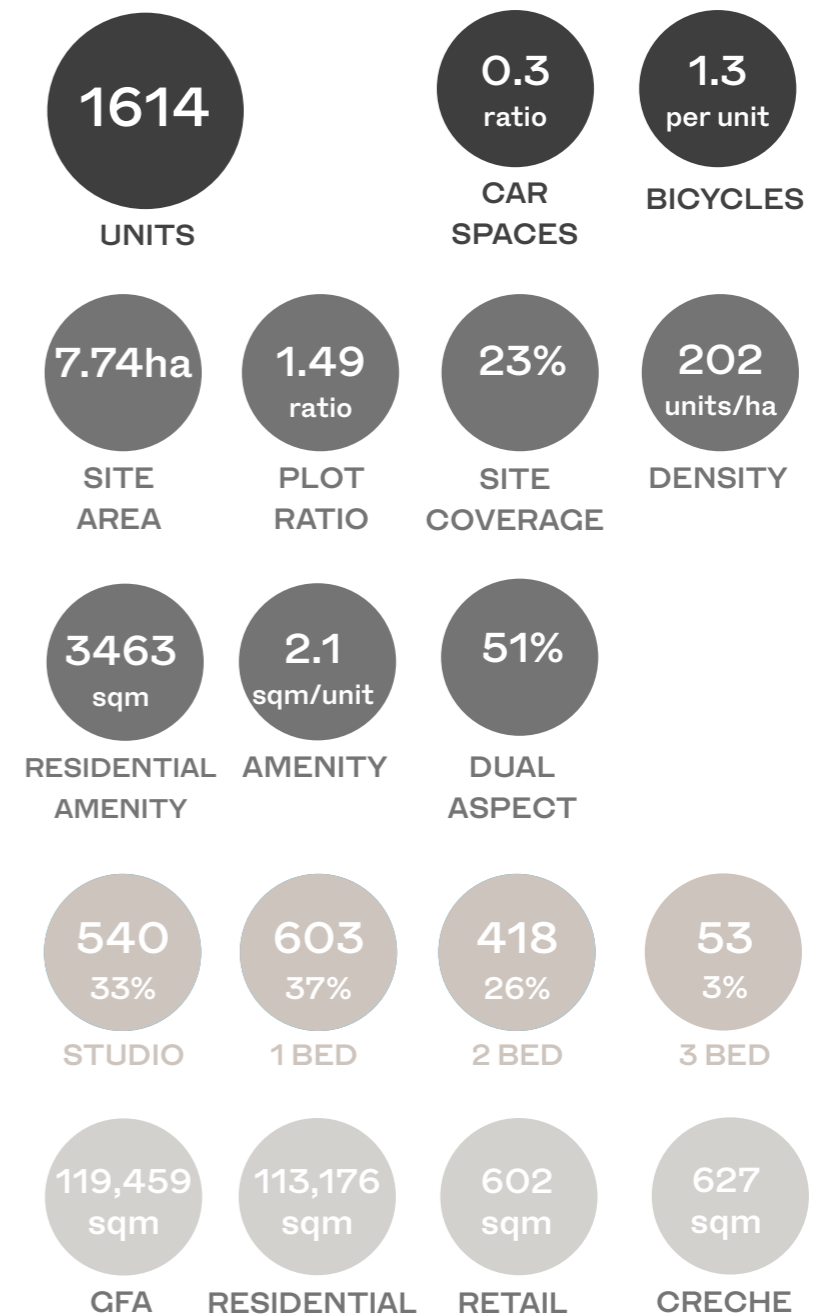

The residential buildings are arranged around a number of proposed public open spaces and routes throughout the site with extensive landscaping and tree planting proposed. Communal amenity spaces will be located adjacent to residential buildings and at roof level throughout the scheme. To facilitate the proposed development the scheme will involve the removal of some existing trees on the site.

The site is proposed to be accessed by vehicles, cyclists and pedestrians from a widened entrance on Clonliffe Road, at the junction with Jones's Road and through the opening up of an unused access point on Drumcondra Road Lower at the junction with Hollybank Rd. An additional cyclist and pedestrian access is proposed through an existing access point on Holy Cross Avenue. Access from the Clonliffe Road entrance will also facilitate vehicular access to future proposed GAA pitches and clubhouse to the north of the site and to a permitted hotel on Clonliffe Road.

CGI View - Formal Green towards Seminary

The proposed application includes all site landscaping works, green roofs, boundary treatments, PV panels at roof level, ESB Substations, lighting, servicing and utilities, signage, and associated and ancillary works, including site development works above and below ground.

1.2 FOCUS OF HOUSING QUALITY ASSESSMENT REPORT

This report has been prepared by Henry J Lyons Architects under the appointment of the applicant CWTC Multi Family ICAV acting on behalf of its sub-fund DBTR DR1 Fund.

The statement forms part of a Strategic Housing Development Application to An Bord Pleanála for a project at the former Holy Cross College, Clonliffe Road, Dublin 3 & Drumcondra Road, Dublin 9.

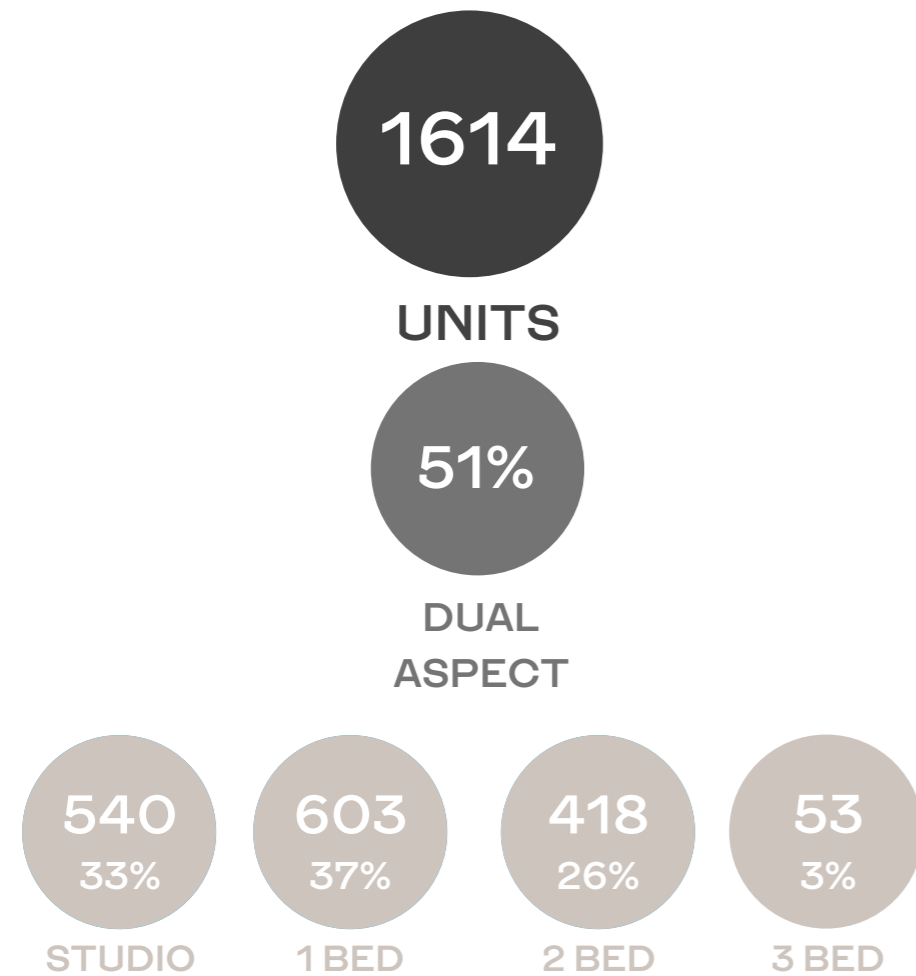

This report should be read as part of a schedule of design statements as set out in Section 1.0 above.

The adjacent diagram identifies the residential blocks that form the overall scheme for Clonliffe Lands.

- This report includes the Schedule of Accommodation and the Housing Quality Assessment Schedule for all blocks within the scheme.
- [For drawing set of unit types please refer to Appendices for each Architectural Design Reports](#)

Keyplan - Residential Blocks

1.3 INTRODUCTION

This document presents twelve residential blocks which form an overall proposal for the provision of a high quality Build-to-Rent Scheme consisting of **1614** residential units arranged as studio, one bed, two bed apartments together with three bed units. The development has been designed to comply with “Sustainable Urban Housing: Design Standards for New Apartments December 2020” and follows best international practices.

The proposal has been developed in response to the site’s constraints and opportunities to create a high quality design, in line with the principles of a masterplan prepared for the Z12 lands. Refer to document Volume 1. Masterplan.

Design Framework

Sustainable Urban Housing: Design Standards For New Apartments Guidelines For Planning Authorities, December 2020

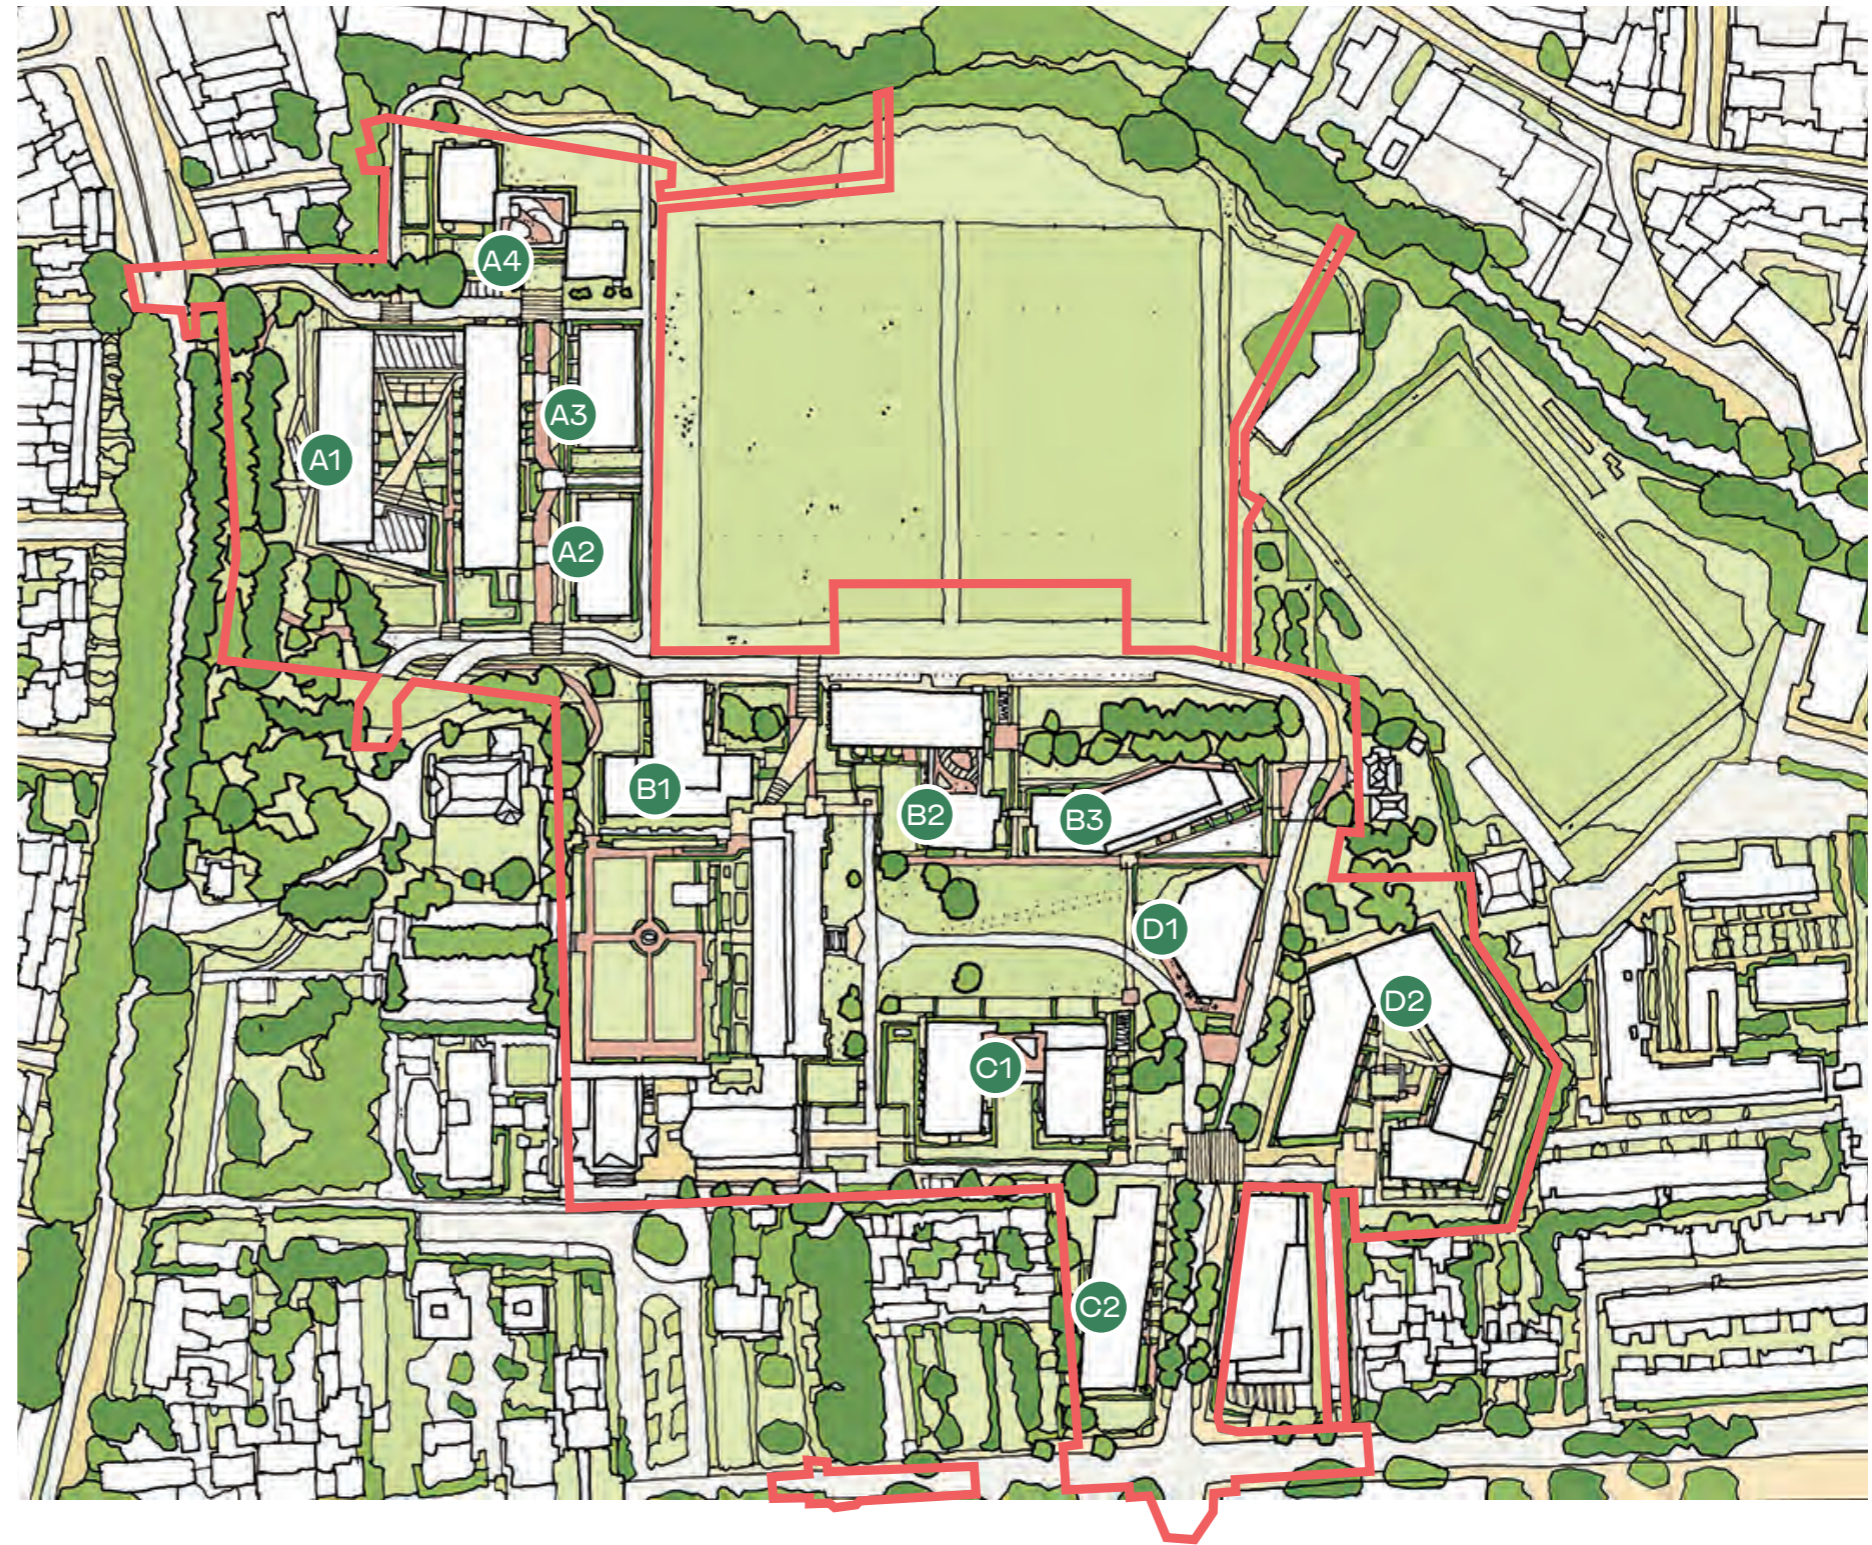

The Guidelines, are designed to encourage the provision of an increased output of higher density apartment development particularly, in urban areas.

This site meets the criteria identified in the Guidelines in relation to ‘Central and/or Accessible Urban Locations’ as being suitable for high density apartment development located within walking distance of significant employment locations and within reasonable walking distance of high capacity urban public transport services.

The proposal has been designed with full regard to the apartment design parameters in the Guidelines including, unit mix, size, internal space standards, dual-aspect ratios, amenity spaces, car and cycle parking provision.

Sustainable Residential Development In Urban Areas Guidelines For Planning Authorities (2009) And Urban Design Manual

The development addresses the relevant provisions of the above Guidelines to ensure that a high quality living environment will be provided for future residents of the scheme.

Artist's Impression of Masterplan Layout - Site Area & Blocks Of Focus

1.4 SUSTAINABLE RESIDENTIAL DEVELOPMENTS IN URBAN AREAS

As set out in the enclosed Planning Reports, the delivery of quality residential development on this prime, infill, underutilised site in a compact form, is wholly consistent with the policies and intentions of the National Planning Framework, Rebuilding Ireland and Regional Spatial and Economic Strategy.

There are limited sites in the Dublin City Council functional area that can accommodate development of the scale proposed in this case. It is critically important that this valuable land is developed to maximise the efficiency of the site and contribute positively to housing supply.

The Guidelines state that in relation to the assessment of individual planning applications and appeals, Planning authorities must apply the following broad principles in considering development proposals for buildings in urban areas in pursuit of these guidelines:

1. Context: How does the development respond to its surroundings?
2. Connections: How well is the new neighbourhood / site connected?
3. Inclusivity: How easily can people use and access the development?
4. Variety: How does the development promote a good mix of activities?
5. Efficiency: How does the development make appropriate use of resources, including land?
6. Distinctiveness: How do the proposals create a sense of place?
7. Layout: How does the proposal create people-friendly streets and spaces?
8. Public realm: How safe, secure and enjoyable are the public areas?
9. Adaptability: How will the buildings cope with change?
10. Privacy / amenity: How do the buildings provide a high quality amenity?
11. Parking: How will the parking be secure and attractive?

12. Detailed design: How well thought through is the building and landscape design?

The evolution of the design from masterplan to application submission stage has taken cognisance of the above guidelines and has structured the engagements between design team and planning authority to date.
