The appeal submissions received by An Bord Pleanála in relation to this application have been reviewed and it is considered that the range of issues set out in the appeal submissions have been previously considered and addressed through the significant further information request and subsequent responses received during the assessment of the application.

The Planning Authority welcomes the application for a comprehensive mixed use development across the site as part of the wider Dublin Central Masterplan site and the principle of the development of the site is considered to be generally acceptable.

The reasoning on which the Planning Authority's decision on this application is based is set out in the Planner's Report which has already been forwarded to An Bord Pleanála. The Planning Authority considers that the comprehensive planning report deals fully with the relevant issues raised and justifies its decision to grant planning permission subject to conditions.

The proposed development which is part of the wider masterplan area for the O'Connell Street Area will significantly regenerate a major underutilised, brownfield city centre site and its potential to contribute to and deliver a positive transformation of O'Connell Street and its immediate area is of strategic importance to Dublin City. The proposal would support and be in accordance with a number of policies and objectives of the Dublin City Development Plan 2022-2028, in particular Policy CEE2 which aims to take a positive and proactive approach when considering the economic impact of major planning applications in order to support economic development, enterprise and employment growth and also to deliver high quality outcomes.

As such, the Planners report still stands and the Inspector is respectfully requested to uphold the decision of the Planning Authority.

Regards
