Introduction:

This Universal Access Statement has been prepared in support of a planning application by Aston Limited (The Applicant) for a Strategic Housing Development (SHD) on lands measuring approximately 27.635 hectares at Great Connell, Newbridge, Co. Kildare.

The application is for a development consisting of 569 residential units broken down as follows:

Residential mix and breakdown:		
House Type	Total	(and %)
2 bed house (2 storey mid terrace)	64	(11.2%)
Total no. of 2 bed houses	64	(11.2%)
3 bed house (2 storey mid terrace)	41	(7.2%)
3 bed house (2 storey end terrace)	64	(11.2%)
3 bed house (2 storey semi-detached)	68	(12.0%)
Total no. of 3 bed houses	173	(30.4%)
4 bed house (2 storey end terrace)	32	(5.6%)
4 bed house (2 storey semi-detached)	48	(8.5%)
4 bed house (3 storey end terrace)	08	(1.4%)
Total no. of 4 bed houses	88	(15.5%)
Total no. of houses	325	(57.1%)
Apartment Type	Total	(and %)
1 bed own door apartment	16	(2.8%)
2 bed own door apartment under 3 bed duplex	66	(11.6%)
2 bed own door apartment	16	(2.8%)
3 bed own door duplex apartment (2 storey)	66	(11.6%)
Total no. of own door apartments	164	(28.8%)
1 bed shared access apartment	17	(3.0%)
2 bed shared access apartment	53	(9.3%)
3 bed shared access apartment	10	(1.8%)
Total no. of shared access apartments	80	(14.1%)
Total no. of apartments	244	(42.9%)
Combined unit mix (apartments & houses)	Total	(and %)
1 bed unit	33	(5.8%)
2 bed unit	199	(35.0%)
3 bed unit	249	(43.7%)
4 bed unit	88	(15.5%)
Total no. units	569	(1 00 %)

The development also includes a 2-4 storey Neighbourhood Centre building of 2,141 m² retail space with adjoining two storey childcare facility of 886 m². The proposed development includes for all associated site development works such as car parking, bicycle parking, refuse storage, surface water attenuation, landscaping etc.

The proposed development is situated in the eastern environs of Newbridge town on what is currently a large greenfield site consisting of agricultural land that also contains several water courses. There are also several existing buildings on site that it is proposed to demolish.

The scheme takes account of a new link road—the Newbridge Southern Orbital Ring Road (NSORR)—that is ultimately to run from the existing Great Connell roundabout at the north-eastern end of the site, over the River Liffey and to connect to the Athgarvan Road to the south-west. As part of the development works, c. 350 m of the NSORR is proposed to be constructed from the new signalised junction that is to replace the Great Connell roundabout. C. 250 m of the NSORR to the south-west of the River Liffey is to also be constructed as part of a new SHD residential scheme granted under An Bord Pleanála ref. no.: ABP-302141-18. This scheme is currently under construction.

Aston Ltd. has also commenced the planning process with Kildare County Council to deliver the final extent of road and bridge connection for the NSORR under a separate planning application (Section 247 KCC Pre-planning Consultation Reference: PP2559).

The following pages set out how the design of the development complies with the principles of universal design. Technical Guidance Document Part M (2010) shall be adhered to in relation to the design of the units.

The development as a whole shall comply with the guidelines and principles of universal design. A high percentage of the units have been designed to comply with the guidelines for universal design, and while others may not comply fully with all aspects of the guidance, they do comply with the majority.

Section 1

Equitable use

The design provides for persons / users with a wide range of abilities and the intention is to make the design appealing to all end users / residents. There are a wide variety of unit types within the development to cater for this as follows:

Туре		Bed	Unit	Quantity
		spaces	area	
	One bedroom apartment

Number of three bedroom apartments (all shared access)			10	
Overall number of apartments:			160	

There are 160 no. dwelling units which are designed to be convertible to become fully accessible (i.e. where level access is provided and the climbing of stairs is not required, and which could be considered as step down accommodation or for use by persons with specific needs. These units are located within the Neighbourhood Centre and shared access apartment blocks; while there are also many ground floor own door units spread throughout the scheme. All units are close to the main amenity open spaces in the development.

There are a number of high quality landscaped open spaces provided for within the development with a variety of uses proposed. All the amenity spaces are accessible and useable by all.

All dwellings and ground floor apartments with own door access, as well as communal entrances into the apartment blocks, are accessed at ground floor via a Part M compliant access route from the parking space to the front door. Access to all parts of the site is provided for all users.

Section 2:

Flexibility of Use:

The residential (and also commercial) accommodation offers a wide variety of layouts for different preferences and uses.

These cover conventional 2/3 storey housing of different styles and character and a variety of apartment and duplex accommodation—all being compliant with TGD Part M. These are as follows:

A wide selection of principal house types that come in a variety of different configurations are proposed (these vary in form and utilise 2,3 and 4 bed terraced & semi-detached typologies) with 4 variants of each type depending on which of the 4 proposed character areas they are located within.

2 principal duplex apartment block types are proposed (these vary in form and contain ground and first floor 2 bed units; and first floor 3 bed duplex unit types

depending on the specific block type). They are arranged in 13 blocks—with 4 blocks adjoining terrace housing—with variants depending on which of the 2 proposed character areas they are located within.

There are 3 different shared access apartment block types, along with the Neighbourhood Centre (including crèche), that all present direct street frontage to the Great Connell Road and the Newbridge Outer Orbital relief road (NSORR). These blocks contain a variety of 1,2 and 3 bed unit types.

The overall summary of dwelling types in each character area is set out in the Appendix at the back of this document.

Section 3:

Simple and Intuitive Use

The language of the design is simple, clearly identifying distinction between public and private domains (different material finishes), simple features to identify access points e.g., porches and roof canopies) and clear visual (physical) links into and around the site.

Internally, dwellings have logical and familiar layouts to easily navigate.

Designated parking is being provided for in close proximity to step down / specific need accommodation as identified in section 1 above as well as to the Neighborhood Centre (including crèche).

Section 4

Perceptible Information

Tactile paving will be used in the detail design of the landscaping to identify road crossings and other hazards. Material selection for the crèche and apartment blocks will ensure that visual contrast is provided for as required by TGD Part M.

The nature and layout of the scheme, clear visual and physical linkages to and from the main public spaces, as well as the town centre of Newbridge, should simplify wayfinding within the development.

Section 5

Tolerance for error

Tactile paving will be used to warn users of road crossings and other hazards. The raised traffic tables, road alignment and landscaping provide traffic calming as well as a safe low speed environment for all.

The clear visual linkages within the development to the primary amenities, both inside and out, will aid differentiation of the various aspects/ parts of the development.

Section 6

Low physical effort

Access around the site is facilitated by means of low gradient pedestrian routes, all a minimum of 2 metres clear width, without significant alteration of the topography. Access to all public and semi-public spaces is via these routes.

Car parking is provided for within the curtilage of houses reducing travel distances, and for the apartment blocks, the majority of car parking is provided adjacent to the main building entrances with the balance within short walking distance. Accessible car spaces are also located close to the entrances of the relevant buildings throughout.

Lifts are provided for in each apartment block and the Neighbourhood Centre. Ambulant stairs are provided as required for access to the upper level own door units (including duplex types) and to access each storey of the apartment blocks and the Neighbourhood Centre.

Section 7

Size and space for approach and use

All entrances are provided with clear approaches and access routes in compliance with TGD Part M. Doorways into apartment blocks and the Neighbourhood Centre units (including creche) are min. 1 metre clear width with level 1.8 metre square clear zones / landings provided clear of door swings.

Doorways into dwelling houses and own door apartment units are min. 0.8 metre clear width with level 1.2 metre square clear zones / landings provided clear of door swings.

All accessible entrances to the various building types will satisfy the guidance in TGD Part M with all such entrances provided with a level entry i.e. with maximum threshold height of 15 mm with exposed edges chamfered or pencil rounded.
