Dear [FORENAME],

As part of the MetroLink project, it is intended to construct a tunnel intervention shaft within the grounds of Albert College Park.

MetroLink is conducting a local area consultation to explain in more detail the function and need for the intervention shaft at this location.

The consultation will be conducted from today Wednesday 12th February 2020 until Thursday, 12th March 2020 at **5pm**.

A technical paper, summary, drawings and images of the proposed works are available on www.metrolink.ie

You can have your say on the proposal by making a submission on the website, by email or post.

We will review all feedback received to help us finalise our designs before submitting our planning application to An Bord Pleanála.

A number of other local area consultations will be held during 2020 and we'll keep you updated on these.

Kind regards,
