ABP - 319198-24

for development of stone quarry
by Milford Quarries Ltd.

Ref. No. 23/60042

This development should not
proceed for the following reasons

1. We have a stone quarry already
in the same area and are
trying to cope with all the problems
that causes as it has expanded
over the years

Dust

2. Contamination of soil and water and the impact on health in relation to respiratory problems including asthma, silicosis and allergy related problems.

3. Water

A big concern for everyone in the area. Concern over our private wells and the wider impact on our rivers for fish, animals etc. The proposed quarry will be drilling or blasting below the water table. Who will be taken to if our wells are contaminated? Water is one of our most precious commodities and needs to be safeguarded.

4. ^{III} The destruction of flora and fauna in the area. Many trees will be felled and the hill behind the quarry could be destabilised resulting in a landslide. Natural animal and bird habitats destroyed.

5. Traffic

Our country roads are not built to cater for 30/40 tonne trucks and articulated lorries. Increased danger for, walkers and cyclists. At present I have to restrict my walking to week-ends as I don't feel safe on our road.

Please consider all the above points.

Yours Sincerely
Mary McDowall
