Development Description	<p>the demolition of existing disused buildings and the development of a dimension stone quarry with a projected lifetime of c. 14 years (12 – 13 years operational with an additional 1-year to allow for the implementation of a restoration plan) at this site of c. 9.34 hectares at Bannagagole, Old Leighlin, Co. Carlow. The proposed quarry void (c. 2.44 ha) will be extracted to a depth of 2 no. benches of c. 10m from top of bedrock, with a final floor level of c. 56.5m AOD with a proposed rate of rock extraction of c.30,000 cubic metres (84,000 tonnes) per annum. A proposed working area of c. 1.2 hectares to the south of the extraction zone will provide for the crushing / processing of unusable stone and temporary storage of dimensional stone and will include machinery storage shed (c. 115m²), staff welfare (c. 45.7 m²), wastewater holding tank, weighbridge & Office (c. 14m²) and staff car parking area. The proposed development will also include for earthen screening berms to a height of c. 3 m, a wheelwash facility; Installation of surface water attenuation and settlement ponds for the treatment of suspended solids in the floor of the quarry void; soil storage area with an average storage depth of c. 4 m and all other site development works above and below ground including the restoration of the final quarry void (extractive area). Access to the proposed development will be facilitated by a HGV site entrance from the L3036 at the eastern boundary of the proposed site. An Environmental Impact Assessment Report (EiAR) and a Natura Impact Statement (NIS) has been submitted</p>

25/3/24

I would like to submit objections on several grounds planning application for New Quarry

PL REF 23-60042

ABP 319198-24

1/ At the present time a number of local businesses already generate a high amount of Traffic on our road. This proposed extra Traffic will greatly effect my ability to walk and drive safely on my own road on a daily basis.

2/ The Roads in question are not suitable for any more extra Traffic. At present the Roads are in a very bad condition with Subsidence and where two heavy vehicles carrying stone have to meet, every day they cause high damage to side of Road and Road surface.

3/ I have also noticed sediment in local streams leading for the River Barrow as a result of the present Quarry.

4/ Noise, air pollution will greatly effect wildlife in surrounding area, causing distress to animals living in their natural habitat and on farms. I cannot see how this planning can go ahead in an area of such beautiful natural heritage which is abundant with protected animals and birds.

5, I wish for myself, my family, and my neighbours to be able to use the Road in Peace and not be put in danger due to extra traffic that the new quarry will generate. This extra noise, pollution, traffic will greatly affect the quality of life for all in the local area and I therefore object to the proposed new quarry due to the above reasons.

Kind regards

Brenda MORRIS.
