***LIST OF PLANS AND PROJECTS
CONSIDERED IN THE
CUMULATIVE ASSESSMENT***

1. ASSESSMENT OF CUMULATIVE EFFECTS

A search and review in relation to plans and projects that may have the potential to result in cumulative and/or in-combination impacts on European Sites was conducted. This included a review of online Planning Registers, development plans and other available information and served to identify past and future plans and projects, their activities and their predicted effects.

1.1 Plans

The following development plans have been reviewed and taken into consideration as part of this assessment:

- Ireland 4th National Biodiversity Action plan 2023-2030
- Northern and Western Regional Assembly Regional Spatial and Economic Strategy 2020-2032
- Galway County Development Plan 2022-2028

The review focused on policies and objectives that relate to Natura 2000 sites and natural heritage.

Plan	Key Policies/Issues/Objectives Directly Related to European Sites in The Zone of Influence	Assessment of development compliance with policy
<p>Ireland 4th National Biodiversity Action plan 2023-2030</p>	<p>Objective 1: Adopt a Whole-of Government, Whole of-Society Approach to Biodiversity. Proposed actions include capacity and resource reviews across Government; determining responsibilities for the expanding biodiversity agenda providing support for communities, citizen scientists and business; and mechanisms for the governance and review of this National Biodiversity Action Plan.</p> <p>Objective 2: Meet Urgent Conservation and Restoration Needs. Supporting actions will build on existing conservation measures. Efforts to tackle Invasive Alien Species will be elevated. The protected area network will be expanded to include the Marine Protected Areas. The ambition of the EU Biodiversity Strategy will be considered as part of an evolving work programme across Government.</p> <p>Objective 3: Secure Nature’s Contribution to People. Actions highlight the relationship between nature and people in Ireland. These include recognising the tangible and intangible values of biodiversity, promoting nature’s importance to our culture and heritage and recognising how biodiversity supports our society and our economy.</p> <p>Objective 4: Enhance the Evidence Base for Action on Biodiversity. This objective focuses on biodiversity research needs, as well as the development and strengthening of long-term monitoring programmes that will underpin and strengthen future decision-making. Action will also focus on collaboration to advance ecosystem accounting that will contribute towards natural capital accounts.</p> <p>Objective 5: Strengthen Ireland’s Contribution to International Biodiversity Initiatives. Collaboration with other countries and across the island of Ireland will play a key role in the realisation of this Objective. Ireland will strengthen its contribution to international biodiversity initiatives and international governance processes, such as the United Nations Convention on Biological Diversity.</p>	<p>The 4th National Biodiversity Action Plan was comprehensively reviewed for targets and objectives relating to the Natura 2000 network and other natural heritage interests.</p> <p>There will be no adverse effects on designated sites as a result of the Proposed Project. A range of mitigation measures are in place to ensure that there will be no adverse effects on any European Site due to deterioration of water quality, habitat loss or disturbance/displacement of QI species.</p> <p>The Proposed Project is not considered to be in contravention of the objectives within the plan.</p>
<p>Northern and Western Regional Assembly Regional Spatial and Economic Strategy 2020-2032</p>	<p>Regional Policy Objective (RPO) 5.4: Encourage the prioritisation of Site-Specific Conservation Objectives (SSCO) for all sites of Conservation Value, designated in EU Directive (i.e. SACs, SPAs) to integrate with the development objectives of this Strategy.</p>	<p>The strategy plan was comprehensively reviewed, with particular reference to Policies and Objectives that relate to the Natura 2000 network and other natural heritage interests.</p>

	<p>RPO 5.5: Ensure efficient and sustainable use of all our natural resources, including inland waterways, peatlands, and forests in a manner which ensures a healthy society a clean environment and there is no net contribution to biodiversity loss arising from development supported in this strategy. Conserve and protect designated areas and natural heritage area. Conserve and protect European sites and their integrity.</p> <p>RPO 5.7: Ensure that all plans, projects and activities requiring consent arising from the RSES are subject to the relevant environmental assessment requirements including SEA, EIA and AA as appropriate.</p>	<p>There will be no adverse effects on any designated sites as a result of the Proposed Project.
