TREE CONSTRAINTS

SITE BOUNDARY

Drawing to be interpreted with reference to the Arboricultural Assessment document

Tree constraints shown are calculated from guidelines contained within BS5837 (2012) with dimensions contained within Appendix i of the Tree Survey document. This outline should not be interpreted as the exact extent of root spread however it is considered the optimal area to be retained free of developmental impacts. Natural and/or man made barriers such as waterlogged soil or buildings may restrict the spread of tree roots. Crown spreads may also prove to be a constraint particularly where crown reduction may not be possible. The constraints lines shown on this drawing are therefore a guide only. An on-site assessment should be undertaken in the event of any developments being planned within the areas shown for retained trees.

REVISIONS		
REV	DATE	DESCRIPTION
A	05.12.24	BONDARY REVISION
PROJECT:		JOB NO.
PROPOSED DEVELOPMENT AT THE OLD RECTORY, MOUNTSHANNON, CO. CLARE		TINI003
