

## Appendix 15-1 - Legislation Protecting the Archaeological Resource

## APPENDIX 15.1      LEGISLATION PROTECTING THE ARCHAEOLOGICAL RESOURCE

### PROTECTION OF CULTURAL HERITAGE

The cultural heritage in Ireland is safeguarded through national and international policy designed to secure the protection of the cultural heritage resource to the fullest possible extent (Department of Arts, Heritage, Gaeltacht and the Islands 1999, 35). This is undertaken in accordance with the provisions of the European Convention on the Protection of the Archaeological Heritage (Valletta Convention), ratified by Ireland in 1997.

### THE ARCHAEOLOGICAL RESOURCE

The National Monuments Act 1930 to 2014 and relevant provisions of the National Cultural Institutions Act 1997 are the primary means of ensuring the satisfactory protection of archaeological remains, which includes all man-made structures of whatever form or date except buildings habitually used for ecclesiastical purposes. A National Monument is described as ‘a monument or the remains of a monument the preservation of which is a matter of national importance by reason of the historical, architectural, traditional, artistic or archaeological interest attaching thereto’ (National Monuments Act 1930 Section 2). A number of mechanisms under the National Monuments Act are applied to secure the protection of archaeological monuments. These include the Register of Historic Monuments, the Record of Monuments and Places, and the placing of Preservation Orders and Temporary Preservation Orders on endangered sites.

### OWNERSHIP AND GUARDIANSHIP OF NATIONAL MONUMENTS

The Minister may acquire national monuments by agreement or by compulsory order. The state or local authority may assume guardianship of any national monument (other than dwellings). The owners of national monuments (other than dwellings) may also appoint the Minister or the local authority as guardian of that monument if the state or local authority agrees. Once the site is in ownership or guardianship of the state, it may not be interfered with without the written consent of the Minister.

### REGISTER OF HISTORIC MONUMENTS

Section 5 of the 1987 Act requires the Minister to establish and maintain a Register of Historic Monuments. Historic monuments and archaeological areas present on the register are afforded statutory protection under the 1987 Act. Any interference with sites recorded on the register is illegal without the permission of the Minister. Two months’ notice in writing is required prior to any work being undertaken on or in the vicinity of a registered monument. The register also includes sites under Preservation Orders and Temporary Preservation Orders. All registered monuments are included in the Record of Monuments and Places.

### PRESERVATION ORDERS AND TEMPORARY PRESERVATION ORDERS

Sites deemed to be in danger of injury or destruction can be allocated Preservation Orders under the 1930 Act. Preservation Orders make any interference with the site illegal. Temporary Preservation Orders can be attached under the 1954 Act. These perform the same function as a Preservation Order but have a time limit of six months,

after which the situation must be reviewed. Work may only be undertaken on or in the vicinity of sites under Preservation Orders with the written consent, and at the discretion, of the Minister.

#### **RECORD OF MONUMENTS AND PLACES**

Section 12(1) of the 1994 Act requires the Minister for Arts, Heritage, Gaeltacht and the Islands (now the Minister for the Department of Housing, Local Government and Heritage) to establish and maintain a record of monuments and places where the Minister believes that such monuments exist. The record comprises a list of monuments and relevant places and a map/s showing each monument and relevant place in respect of each county in the state. All sites recorded on the Record of Monuments and Places receive statutory protection under the National Monuments Act 1994. All recorded monuments on the proposed development site are represented on the accompanying maps.

Section 12(3) of the 1994 Act provides that 'where the owner or occupier (other than the Minister for Arts, Heritage, Gaeltacht and the Islands) of a monument or place included in the Record, or any other person, proposes to carry out, or to cause or permit the carrying out of, any work at or in relation to such a monument or place, he or she shall give notice in writing to the Minister of Arts, Heritage, Gaeltacht and the Islands to carry out work and shall not, except in case of urgent necessity and with the consent of the Minister, commence the work until two months after giving of notice'.

Under the National Monuments (Amendment) Act 2004, anyone who demolishes or in any way interferes with a recorded site is liable to a fine not exceeding €3,000 or imprisonment for up to 6 months. On summary conviction and on conviction of indictment, a fine not exceeding €10,000 or imprisonment for up to 5 years is the penalty. In addition, they are liable for costs for the repair of the damage caused.

In addition to this, under the European Communities (Environmental Impact Assessment) Regulations 1989, Environmental Impact Statements (EIS) are required for various classes and sizes of development project to assess the impact the proposed development will have on the existing environment, which includes the cultural, archaeological and built heritage resources. These document's recommendations are typically incorporated into the conditions under which the proposed development must proceed, and thus offer an additional layer of protection for monuments which have not been listed on the RMP.

#### **THE PLANNING AND DEVELOPMENT ACT 2000**

Under planning legislation, each local authority is obliged to draw up a Development Plan setting out their aims and policies with regard to the growth of the area over a five-year period. They cover a range of issues including archaeology and built heritage, setting out their policies and objectives with regard to the protection and enhancement of both. These policies can vary from county to county. The Planning and Development Act 2000 recognises that proper planning and sustainable development includes the protection of the archaeological heritage. Conditions relating to archaeology may be attached to individual planning permissions.

## WATERFORD CITY AND COUNTY DEVELOPMENT PLAN (2022-2028)

### **AH 01 National Monuments Act**

It is the policy of the Council to protect, and enhance in an appropriate manner all elements of the archaeological heritage including the following categories:

- a) Sites and monuments included in the Sites and Monuments Record as maintained by the Department with responsibility for the protection of Ireland's archaeological heritage.
- b) Monuments and places included in the Record of Monuments and Places (RMP) as established under the National Monuments Acts.
- c) Historic monuments and archaeological areas included in the Register of Historic Monuments as established under the National Monuments Acts.
- d) National Monuments subject to Preservation Orders under the National Monuments Acts and National Monuments which are in the ownership or guardianship of the Minister with responsibility for archaeological heritage or a local authority.
- e) Archaeological objects within the meaning of the National Monuments Acts.
- f) Wrecks protected under the National Monuments Acts or otherwise included in the Shipwreck Inventory maintained by the National Monuments Service, underwater archaeology, riverine, coastal or lacustrine locations.
- g) Archaeological features not as yet identified but which may be impacted on by development. And where feasible, appropriate and applicable to promote access (including disabled access) to and signposting and interpretive material of such sites and monuments and provide appropriate forms of virtual access where physical access is not possible.

### **AH 02 Managing Development**

We will contribute, as appropriate, towards the protection and sympathetic enhancement of archaeological heritage, in particular by implementing the relevant provisions of the Planning and Development Act 2000 (as amended) and the National Monuments Act, 1930 (as amended). We will ensure that archaeological excavation is carried out according to best practice as outlined by the National Monuments Service, Department of Housing, Local Government and Heritage, the National Museum of Ireland and the Institute of Archaeologists of Ireland. We will consult with the National Monuments Service as relevant in relation to proposed developments, including those adjoining archaeological sites.

### **AH 03 Preservation of Archaeological Material**

Waterford City & County Council shall, in an appropriate manner, secure either by preservation in-situ or preservation-by-record, the archaeological heritage. In this regard priority shall be given to the preservation in-situ of any archaeological monument/site/place as the first option considered. If preservation in-situ cannot be achieved, or can only be achieved in-part, then preservation-by-record of elements of the archaeological heritage will be required –this will require the full archaeological excavation and recording of the monument/site, according to best professional practice. Where excavation is required this shall also include the preparation of

appropriate reports, post-excavation analyses and publications. The costs of assessing and mitigating archaeological impacts shall form part of development costs as borne by the developer.

#### **AH 04 Archaeological Impact Considerations**

It is the policy of the Council to:

- Ensure that development in the vicinity of a site of archaeological interest shall be designed and sited sympathetically and shall not be detrimental to the character of the archaeological site or its setting by reason of its location, scale, bulk or detailing.
- When considering development in the vicinity of all archaeological sites including remnants of the city and town walls, the planning authority will require the preparation of an archaeological assessment detailing the potential impact of any development on upstanding structures, buried structures and deposits. The report will also include a visual impact assessment to ensure adequate consideration of any potential visual impact the proposed development may have on any upstanding remains.
- Proposed developments will be required to retain the existing street layout, including laneways, historic building lines and traditional plot widths where these derive from medieval or earlier origins.
- When considering development in the vicinity of upstanding archaeological/historical monuments, to aim to achieve a satisfactory buffer area between the development and the monument in order to ensure the preservation and enhancement of the amenity associated with the presence of upstanding monuments within the historic urban pattern.
- For all developments, which have potential to impact on riverine, intertidal and sub-tidal environments to require an archaeological assessment prior to works being carried out. In addition to planning permission, development works at National Monuments of which the Minister or local authority is owner of, guardian of or in respect of which a preservation order is in force, may also require Ministerial Consent under Section 14 of the National Monuments Act 1930 (as amended) and this will be determined by the relevant authority (Department of Housing, Local Government & Heritage) on application.

#### **TIPPERARY COUNTY DEVELOPMENT PLAN (2022-2028)**

**It is the policy of the Council to:**

**13 - 4** Safeguard sites, features and objects of archaeological interest, including Recorded Monuments, National Monuments and Monuments on the Register of Historic Monuments, and archaeological remains found within Zones of Archaeological Potential located in historic towns and other urban and rural areas. In safeguarding such features of archaeological interest, the Council will seek to secure their preservation (i.e. in situ or in exceptional circumstances preservation by record) and will have regard to the advice and recommendation of the Department of Arts, Heritage and the Gaeltacht. Where developments, due to their location, size or nature, may have implications for archaeological heritage, the Council may require an archaeological assessment to be carried out. This may include for a requirement for a detailed Visual Impact Assessment of the proposal and how it will impact on the character or setting of adjoining archaeological features. Such developments include those that are located at, or close to an archaeological monument or site, those that are extensive in terms of area (1/2 ha or more) or

length (1 kilometre or more), those that may impact on the underwater environment and developments requiring EIA.

**13 - 5** Respect and preserve the remains (both sub-surface and upstanding) of the medieval towns in line with the Conservation, Management and Interoperation Plans in place for each town, in line with the guidance of the Heritage Council and the National Policy on Town Defences (DEH LG, 2008).

**13 - 6** Consider landscapes of archaeological significance and, if considered necessary, require an impact assessment for proposed development which could have a significant impact on the identified landscape.

**13 - 7** Consider underwater archaeology and ensure that development to river banks or coastal edges within the vicinity of a site of archaeological interest shall not be detrimental to the character of the archaeological site or its setting.

## Appendix 15-2 - Legislation Protecting the Architectural Resource

## APPENDIX 15.2      LEGISLATION PROTECTING THE ARCHITECTURAL RESOURCE

The main laws protecting the built heritage are the Architectural Heritage (National Inventory) and National Monuments (Miscellaneous Provisions) Act 1999 and the Local Government (Planning and Development) Acts 1963–1999, which has now been superseded by the Planning and Development Act, 2000. The Architectural Heritage Act requires the Minister to establish a survey to identify, record and assess the architectural heritage of the country. The background to this legislation derives from Article 2 of the 1985 Convention for the Protection of Architectural Heritage (Granada Convention). This states that:

For the purpose of precise identification of the monuments, groups of structures and sites to be protected, each member state will undertake to maintain inventories of that architectural heritage.

The National Inventory of Architectural Heritage (NIAH) was established in 1990 to fulfil Ireland's obligation under the Granada Convention, through the establishment and maintenance of a central record, documenting and evaluating the architecture of Ireland (NIAH Handbook 2005:2). As inclusion in the inventory does not provide statutory protection, the survey information is used in conjunction with the Architectural Heritage Protection Guidelines for Planning Authorities to advise local authorities on compilation of a Record of Protected Structures as required by the Planning and Development Act, 2000.

### PROTECTION UNDER THE RECORD OF PROTECTED STRUCTURES AND COUNTY DEVELOPMENT PLAN

Structures of architectural, cultural, social, scientific, historical, technical or archaeological interest can be protected under the Planning and Development Act, 2000, where the conditions relating to the protection of the architectural heritage are set out in Part IV of the act. This act superseded the Local Government (Planning and Development) Act, 1999, and came into force on 1st January 2000.

The act provides for the inclusion of Protected Structures into the planning authorities' development plans and sets out statutory regulations regarding works affecting such structures. Under new legislation, no distinction is made between buildings formerly classified under development plans as List 1 and List 2. Such buildings are now all regarded as 'Protected Structures' and enjoy equal statutory protection. Under the act the entire structure is protected, including a structure's interior, exterior, attendant grounds and also any structures within the attendant grounds.

The act defines a Protected Structure as (a) a structure, or (b) a specified part of a structure which is included in a Record of Protected Structures (RPS), and, where that record so indicates, includes any specified feature which is in the attendant grounds of the structure and which would not otherwise be included in this definition. Protection of the structure, or part thereof, includes conservation, preservation, and improvement compatible with maintaining its character and interest. Part IV of the act deals with architectural heritage, and Section 57 deals specifically with works affecting the character of Protected Structures or proposed Protected Structures and states that no works should materially affect the character of the structure or any element of the structure

that contributes to its special architectural, historical, archaeological, artistic, cultural, scientific, social or technical interest. The act does not provide specific criteria for assigning a special interest to a structure. The National Inventory of Architectural Heritage (NIAH) offers guidelines to its field workers as to how to designate a building with a special interest, which are not mutually exclusive. This offers guidance by example rather than by definition:

#### ARCHAEOLOGICAL

It is to be noted that the NIAH is biased towards post-1700 structures. Structures that have archaeological features may be recorded, providing the archaeological features are incorporated within post-1700 elements. Industrial fabric is considered to have technical significance, and should only be attributed archaeological significance if the structure has pre-1700 features.

#### ARCHITECTURAL

A structure may be considered of special architectural interest under the following criteria:

- Good quality or well executed architectural design
- The work of a known and distinguished architect, engineer, designer, craftsman
- A structure that makes a positive contribution to a setting, such as a streetscape or rural setting
- Modest or vernacular structures may be considered to be of architectural interest, as they are part of the history of the built heritage of Ireland.
- Well-designed decorative features, externally and/or internally

#### HISTORICAL

A structure may be considered of special historical interest under the following criteria:

- A significant historical event associated with the structure
- An association with a significant historical figure
- Has a known interesting and/or unusual change of use, e.g. a former workhouse now in use as a hotel
- A memorial to a historical event.

#### TECHNICAL

A structure may be considered of special technical interest under the following criteria:

- Incorporates building materials of particular interest, i.e. the materials or the technology used for construction
- It is the work of a known or distinguished engineer
- Incorporates innovative engineering design, e.g. bridges, canals or mill weirs
- A structure which has an architectural interest may also merit a technical interest due to the structural techniques used in its construction, e.g. a curvilinear glasshouse, early use of concrete, cast-iron prefabrication.
- Mechanical fixtures relating to a structure may be considered of technical significance.

#### CULTURAL

A structure may be considered of special cultural interest under the following criteria:

- An association with a known fictitious character or event, e.g. Sandycove Martello Tower, which featured in Ulysses.

- Other structure that illustrate the development of society, such as early schoolhouses, swimming baths or printworks.

#### SCIENTIFIC

A structure may be considered of special scientific interest under the following criteria:

- A structure or place which is considered to be an extraordinary or pioneering scientific or technical achievement in the Irish context, e.g. Mizen Head Bridge, Birr Telescope.

#### SOCIAL

A structure may be considered of special social interest under the following criteria:

- A focal point of spiritual, political, national or other cultural sentiment to a group of people, e.g. a place of worship, a meeting point, assembly rooms.
- Developed or constructed by a community or organisation, e.g. the construction of the railways or the building of a church through the patronage of the local community
- Illustrates a particular lifestyle, philosophy, or social condition of the past, e.g. the hierarchical accommodation in a country house, philanthropic housing, vernacular structures.

#### ARTISTIC

A structure may be considered of special artistic interest under the following criteria:

- Work of a skilled craftsman or artist, e.g. plasterwork, wrought-iron work, carved elements or details, stained glass, stations of the cross.
- Well-designed mass-produced structures or elements may also be considered of artistic interest.

(From the NIAH Handbook 2003 & 2005 pages 15–20)

The Local Authority has the power to order conservation and restoration works to be undertaken by the owner of the protected structure if it considers the building to need repair. Similarly, an owner or developer must make a written request to the Local Authority to carry out any works on a protected structure and its environs, which will be reviewed within three months of application. Failure to do so may result in prosecution.

#### WATERFORD CITY AND COUNTY DEVELOPMENT PLAN (2022-2028)

##### Architectural Heritage

##### **BH 01 Record of Protected Structures**

We will promote the protection of the architectural heritage of the City and County through the identification of structures of special architectural, historical, archaeological, artistic, cultural, scientific, social or technical interest, by the inclusion of such structures on the Record of Protected Structures (RPS) and by taking such steps as are necessary to ensure the protection of those structures, their maintenance, conservation, enhancement, and appropriate active use. To this end we will contribute towards the protection of architectural heritage by complying, as appropriate, with the legislative provisions of the Planning and Development Act 2000 (as amended) in relation to architectural heritage and the policy guidance contained in the Architectural Heritage Protection Guidelines 2011 (and any updated/superseding document).

## **BH 02 Supporting our Built Heritage Assets**

It is the policy of the Council:

- To promote the sustainable reuse of protected structures for any such purpose compatible with the character of the structure. The Planning Authority may, where considered appropriate, relax use zoning and other site development restrictions and may grant exemption from or reduce the amounts of development contributions payable in order to secure the protection and conservation of protected structures or historic structures within ACAs and by way of reduction of development levies for improvements to Protected Structures. These restrictions may be relaxed and development contributions reduced or exempted where the protected structure will be rehabilitated to a high standard, where the special interest, character and setting of the building is protected and where the proposed use and development is consistent with conservation policies and the proper planning and sustainable development of the area. In such cases the proposed development shall be open for consideration notwithstanding the current zoning objective for the site and therefore shall be considered as not materially contravening the Development Plan.
- To administer incentives for the protection of the architectural heritage of the City and County through administration of the Built Heritage funding schemes or similar Department of Housing Local Government and Heritage funding schemes.
- To advise with regard to best conservation practice as per Architectural Heritage Protection Guidelines for Planning Authorities 2011 available on the Councils Website and Department of Housing Local Government and Heritage Advice Series.

## **BH 03 Statutory Declarations**

We will issue Section 57 Declarations on request to owners or occupiers of protected structures detailing the type of works that it is considered would or would not materially affect the character of the structure or of any element of the structure which contributes to its special interest.

## **BH 04 Demolition of Protected Structures**

Proposals for the demolition of a Protected Structure may be considered in exceptional circumstances and the onus will be on the developer to provide the strongest justification for such an action as per the Heritage Protection Guidelines for Planning Authorities and other guidance.

## **BH 05 Architectural Conservation Areas**

It is the policy of the Council to:

- Achieve the preservation of the special character of places, areas, groups of structures setting out Architectural Conservation Areas (ACA).
- Protect the special heritage values, unique characteristics and distinctive features, such as shopfronts within the ACA from inappropriate development which would detract from the special character of the ACA.
- Prohibit the demolition of historic structures that positively contributes to the distinctive character of the ACA.
- Encourage the undergrounding of overhead services and the removal of redundant wiring/cables within an ACA and to assess all further cable installations against its likely impact on the character of the ACA as the cumulative impact of wiring can have a negative impact on the character of ACAs.

- Provide guidelines on appropriate development to retain its distinctive character; and protect elements of the streetscape such as rubble stone boundary walls, planting schemes and street furniture such as paving, post boxes, historic bollards, basement grills, street signage/plaques, etc. which make a positive contribution to the built heritage.
- Retain or sensitively reintegrate any surviving items of historic street furniture and finishes such as granite kerbing and paving that contribute to the character of an ACA.

#### **BH 06 Architectural Heritage Impact Assessment**

It is the policy of the Council when considering development which may have a significant impact on a protected structures, its setting or curtilage or have an impact on an ACA, that the proposal be accompanied by an architectural heritage impact assessment (AHIA) detailing the potential impact of the development on the architectural heritage. The report should be compiled in accordance with the details set out in Appendix B of the Architectural Heritage Protection Guidelines for Planning Authorities, Department of the Environment.

#### **TIPPERARY COUNTY DEVELOPMENT PLAN (2022-2028)**

It is the policy of the Council to:

**13 - 1** Encourage and support the sympathetic restoration, re-use and maintenance of protected structures thereby ensuring their conservation and protection. In considering proposals for development, the Council will have regard to the Architectural Heritage Protection Guidelines for Planning Authorities, (DAHG 2011) or any amendment thereof, and proposals that will have an unacceptable impact on the character and integrity of a protected structure or adjoining protected structure will not be permitted.

**13 - 2** Encourage and support new development that contributes to the enhancement of ACAs with regard to; a) Impact on the character, appearance and integrity of the ACA in terms of compatibility in design, colour, finishes and massing of form;

b) Impact on the existing amenities, character and heritage of the ACA;

c) The importance of retaining important architectural and townscape elements such as shopfronts, sash windows, gutters and down pipes, plasterwork etc as appropriate.

**13 - 3** Seek the sympathetic restoration, appropriate re-use and maintenance of buildings/features which are considered to be of local and vernacular architectural importance.

Appendix 15-3- Assessment of Operational Impacts

## APPENDIX 15.3 ASSESSMENT OF OPERATIONAL IMPACTS

AH NO.	RMP NO.	LOCATION	CLASSIFICATION	DISTANCE FROM TURBINES	IMPACT TYPE	SIGNIFICANCE OF EFFECT
PO site	TS088-033001/2	Clashganny	Church and graveyard	6.17 km northeast	Indirect	Not significant

CH NO	TOWNLAND	DESCRIPTION		DISTANCE TO TURBINES	IMPACT TYPE	SIGNIFICANCE OF EFFECTS
CH1	Tooranaraheen	Site of a vernacular structure shown on the first edition OS map of 1842. No longer shown by the time of the 1906 OS map.		788m south	No impact	N/a
CH2	Tooranaraheen	Site of a small vernacular structure shown on the first edition OS map of 1842. No longer shown by the time of the 1906 OS map.		503m east-southeast	No impact	N/a
CH3	Tooranaraheen	Site of a small vernacular structure shown on the first edition OS map of 1842, by the time of the 1906 OS map it has expanded to a group of four small structures. Aerial imagery suggests that the ruins of this group may still be present within a forestry		757m southeast	No impact	N/a
CH4	Tooranaraheen	Site of a small vernacular structure shown on both the first edition OS map of 1842 and the later 1906 OS map. No longer extant.		974m southeast	No impact	N/a
CH5	Knocknasheega	Site of a group of three vernacular structures shown on the first edition OS map of 1842, with a possible lime kiln to the immediate north. By the time of the 1906 OS map, only one small structure survives. Not longer extant.		758m southwest	No impact	N/a
CH6	Knocknasheega	Site of a single vernacular structure shown on the first edition OS map 1842. By the time of the later 1906 map, the structure is no longer extant.		561m southwest	No impact	N/a
CH7	Scartmountain	Site of lime kiln shown on the first edition OS map of 1842, which was no longer shown on the later 1906 OS map.		322m southwest	No impact	N/a

CH NO	TOWNLAND	DESCRIPTION	DISTANCE TO TURBINES	IMPACT TYPE	SIGNIFICANCE OF EFFECTS
CH8	Toor	Site of a small vernacular structure shown on the first edition of the 1842 OS map and on the later 1906 OS map. The site is now covered by a forestry plantation and is unclear from the aerial photography if there are any ruins upstanding.	510m southeast	No impact	N/a
CH9	Moneygorm East	Site of a lime kiln shown on the first edition OS map of 1842, no longer shown on the later OS map of 1906.	660m southwest	No impact	N/a
CH10	Moneygorm East	Site of a single small vernacular structure shown on the first edition OS map of 1842, but no longer extant by the time of the later OS map of 1906.	739m southwest	No impact	N/a
CH20	Knocknasheega	Site of lime kiln shown on the first edition OS map of 1842.	715m west-southwest	No impact	N/a
CH23	Knocknanask	Group of two vernacular structures shown on the first edition OS map of 1842. By the time of the 1906 OS map the group has expanded to three structures.	873m southwest	Indirect	Imperceptible negative
CH24	Tooranaraheen	Group of three vernacular structures and a lime kiln to the immediate west depicted on the first edition OS map of 1842. By the time of the 1906 OS map the group has been extended and the lime kiln is marked as 'disused'.	1.13 km south	Indirect	Slight negative
CH25	Knockboy	A pair of vernacular structures shown on the first edition OS map of 1842. Aerial imagery indicates that at least one of these structures remains extant but is derelict, now surrounded by forestry.	1.7 km southwest	No impact	N/a
CH26	Knockboy	Group of three small vernacular structures shown on the first edition OS map of 1842. The later OS map of 1906 shows that the group has been extended with six small structures shown. The aerial imagery shows that at least one of these structures remains extant though it is likely derelict.	1.74 km southwest	Indirect	Imperceptible negative
CH27	Knocknafrehane	Vernacular structure shown on the first edition OS map of 1842, which has expanded to a group of three structures by 1906. Now incorporated into a modern farmyard.	2 km west	Indirect	Slight negative

CH NO	TOWNLAND	DESCRIPTION	DISTANCE TO TURBINES	IMPACT TYPE	SIGNIFICANCE OF EFFECTS
CH28	Knocknafrehane	A pair of vernacular structures shown on the first edition OS map of 1842, expanded to a group of three by the 1906 OS map.	1.77 km west	No impact	N/a
CH29	Coolagortboy	A group of vernacular structures shown on the first edition OS map of 1842. The group is shown as two large structures and one small outbuilding on the 1906 OS map. The two larger structures remain extant.	844m northwest	Indirect	Moderate negative
CH30	Coolagortboy	A group of six vernacular structures shown on the first edition OS map of 1842. A number of the structures appear to be been extended by the time of the 1906 OS map. A number of the structure are extant within a modern farmyard.	1.18 km west	Indirect	Slight negative
CH31	Coolagortboy	A group of three vernacular structures depicted on the first edition OS map of 1842, extended by 1906 and shown to include four structures. The main structures are extant and incorporated into a modern farmyard.	825m southwest	Indirect	Slight negative
CH32	Coolagortboy	Pair of vernacular structures shown on the first edition OS map of 1842, later in 1906, shown as a group of four structures adjacent to a lime kiln, marked as 'disused'. Only one of the group appears to be survive in the satellite imagery.	833m southwest	Indirect	Slight negative
CH34	Coolnacreena	A group of 10 small vernacular structures shown on the first edition OS map of 1842. Eight of the group are still extant by the time of the 1906 OS map. A number of structures survive within a modern farmyard.	1.85 km southwest	Indirect	Slight negative
CH39	Bawnfoun	A vernacular structure shown on the first edition OS map of 1842 and the 1906 OS map.	2km south-southwest	Indirect	Slight negative
CH40	Moneygorm West	A group of four vernacular structures shown on the first edition OS map of 1842 and the 1906 OS map, where the group has expanded to five structures. A number of structures survive to the immediate east of a modern farmyard.	1.72 km south	Indirect	Slight negative

CH NO	TOWNLAND	DESCRIPTION	DISTANCE TO TURBINES	IMPACT TYPE	SIGNIFICANCE OF EFFECTS
CH41	Moneygorm West	A group of three vernacular structures depicted on the first edition OS map of 1842 and the later 1906 OS map. The group appears to survive upstanding but in ruins.	1.05 km southwest	Indirect	Not significant
CH52	Lyrattin	A group of vernacular structures depicted on the first edition OS map of 1842, adjacent to a well annotated as 'Tobin's Well'. The group has been reduced to three structures by the time of the 1906 OS map. The structures appear to be incorporated into a farmyard.	1.22 km southeast	Indirect	Slight negative
CH53	Lyrattin	A group of seven vernacular structures shown on the first edition OS map. The later OS map of 1906 shown four remaining structures by this time. At least three of the structures are extant and now form part of a modern farmyard.	1.66 km east	Indirect	Imperceptible negative
CH54	Dyrick	A group of three vernacular structures shown on the first edition OS map of 1842 and the later OS map of 1906.	1.01 km east-northeast	Indirect	Imperceptible negative
CH55	Ballynaguilkee Upper	A group of four small vernacular structures shown on the first edition OS map of 1842 and the later OS map of 1906. The aerial imagery appears to indicate that these structures are extant but derelict.	1.48 km northeast	Indirect	Slight negative
CH56	Boolahallagh	A large group of vernacular structures shown on the first edition OS map of 1842. By the time of the 1906 OS map, this group has been reduced to two structures adjacent to a ford.	1.71 km northeast	No impact	N/a
CH57	Boolahallagh	A vernacular structure and small outbuilding shown on the first edition OS map of 1842 and the later OS map of 1906. This structure survives and has been incorporated into a modern farmyard.	1.90 km northeast	Indirect	Imperceptible negative
CH59	Kilnacarriga	A pair of vernacular structures shown on the first edition OS map of 1842.	1.59 km northwest	No impact	N/a
CH60	Glennafallia	A pair of small vernacular structures shown on the first edition OS map of 1842. The group has been expanded to five structures by the time of the 1906	1.16 km southwest	Indirect	Slight negative
