EIAR Volume 3: Appendix 3.1

Planning History associated with the Lisheen Zinc Mine

RECEIVED: 02/11/2024

Planning Ref.	Status	Description of Development
51/17763	Granted	Zin/Lead mine with ore processing and related facilities
5124572	Granted	Extraction of Borrow material
04511667	Granted	Extension of existing mine and construction of three no. ventilation shafts, two of which have evases and the third a hoist house. An EIS has been submitted with this application.
8510773	Granted	Wind turbine farm consisting of 22 no. wind turbine generators, access roads, carnage ponds, and associated infrastructure. An EIS will be submitted to the Planning Authority with this application.
9510142	Granted	Erect one no. permanent meteorological mast of 95m height with internal access road to be utilised for the limited purpose of monitoring wind and climate conditions for the development in North Tipperary County Council PI Ref. 06510773 and APB PL 22.222.142.
12510034	Granted	Develop the Derryville Island Ore Deposit underground workings as an extension to the existing Lisheen Mine and the construction of one no. ventilation shaft. The Lisheen Mine is subject to the conditions of IPPCL No. P0099-03. The development will include underground mine workings, as an extension to the existing Lisheen Mine and the construction of one no. ventilation shaft and associated building. An EIS shall be submitted to the Planning Authority with the application The Major Accident Regulations apply to the proposed development
13510275	Granted	Consisting of modification of the permitted water impoundment facility (permitted under An Bord Pleanála Ref No. PL22. 100093 (North Tipperary County Council Reg Ref PLC17663) including use of the facility to provide for the storage and management of mine tailing within the same structure (for the purposes of extending life of the mine) and associated capping and reinstatement activities. The proposed development also includes: the installation of spigots and reclaim pumps; and all other ancillary site development works. An EIS and Natura Impact Statement (NIS) have been prepared and will be submitted to the Planning Authority with the planning application. The application relates to development which comprises or is for the purposes of an activity requiring an integrated Pollution Prevention and Control Licence (IPPC) under the EPA Acts. 1992 to 2013 (EPA Licence Reg. No. P0069-03).
14600396	Granted	An increase in height of the existing Tailings Management Fact (TWF) Previously permitted under Reg. No. 13/510275, granted in 2013 (small adjoining facility to the main TMP). The raise in height of this adjoining cell from c.131.5 mod up to a maximum of c.136.5 mod, will provide additional storage for the management of mine tailings for the purposes of extending the life of the mine, and will result in an increase in the footprint of the TMF of c. 2.25 hectares. The development also includes all related ancillary development works. This application is accompanied by an EIS and NIS and relates activity requiring an EPA Licence.
