1 INTRODUCTION

1.1 Automatic Traffic Counts

Automatic Traffic Counters (ATC) were positioned on the sections of road through Clonaslee that are expected to be utilised by construction staff. The ATC recorded the volumes, type and speeds of vehicles travelling in both directions. These surveys provide a profile of the traffic flow over a seven-day timeframe and provide adequate baseline data to establish the AADT on each of the roads.

The ATC counts were carried out on the following roads:

- R422 Regional Road
- L2006 Chapel Street

1.2 Junction Turning Counts

Junction Turning Counts (JTC) were carried out over a 12-hour period to capture vehicle type and turning movement volumes. Pedestrian and Cyclist movements were also captured as part of these counts at the following locations:

- R422 Regional Road / Chapel Street crossroad junction
- School / GAA grounds entrance

1.3 Pedestrian and Cyclist Counts

Pedestrian and cyclist counts were carried out at the entrance to Brittas Wood forest walk.

2 SURVEY RESULTS

2-1 ATC Survey Results
