Cultural Heritage - Cumulative Impact Assessment	1
Table 1 Cultural Heritage Cumulative Impact Assessment	1

# Cultural Heritage - Cumulative Impact Assessment

Planned and committed projects within 250m of the Project have been assessed as part of the cultural heritage cumulative impact assessment. Developments that have already been constructed have been screened out, due to the fact that they now form part of the cultural heritage receiving environment. Developments that comprise change of use and internal changes (within existing buildings) are screened out as none of these development types would result in impacts on the cultural heritage resource.

No negative impacts upon the cultural heritage resource have been identified when each development is assessed in conjunction with the Project as detailed in the table below.
