Re: Planning Reference OA27.319864 – Submission on Further Information

To Whom It May Concern,

I am making this submission on behalf of 9th Wicklow Arklow Sea Scouts in response to the Further Information submitted in relation to the above application.

9th Wicklow Arklow Sea Scout group previously made a submission in support of this application. We wish to reaffirm our strong support for the proposed development and respectfully ask that our original submission, together with this further submission, be taken into account in the determination of the application.

We believe this project represents an important investment in Ireland's renewable energy infrastructure and will make a significant contribution to Ireland's climate and energy objectives. We also recognise the positive long term benefits the project can bring to the local community and the wider region.

As a community based youth organisation with strong links to the maritime environment, our group supports responsible and sustainable development that benefits current and future generations.

We respectfully request that An Coimisiún Pleanála gives favourable consideration to this application.

Yours sincerely,

Laura Coey

Group Leader

On behalf of 9th Wicklow

Arklow Sea Scout
