Dear Sirs,

After reading through further submissions from SSE, I am in full favour of the wind farm going ahead, it should be deemed an urgent matter to allow this project to start..

I cannot see any reason for the public to object seeing as we have had a Windfarm on the bank for the last twenty years or more..

It's imperative to use our wind to generate electricity, rather than import, we must be more diligent and use what is available on our seas..
