To whom it may concern,

I wish to make some observations on the above plan.

### 1. Public Health and Safety.

#### (A.) Child Protection issues like

Children losing a popular green space

Direct access to a busy dual carriageway to  
small children used to playing out-doors in  
a safe, secure residential area.

a risk of child abduction.

Increased risk of small children being offered drugs.

The child safety implications here is huge for the area.

#### (B.) Overall safety of the area.

- (1) Unwanted access to a busy Dual Carriageway  
increasing the risk of traffic accidents involving pedestrians
- (2) Increase volumes of traffic in the estate.
- (3) Increase volumes of vehicle parking, and possible  
vehicle abandonment, by the public wishing  
to use the bus connect service.

1. The first part of the paper discusses the history of the library and its role in the university. It covers the period from the founding of the university in 1837 to the present day. The library has grown from a small collection of books to a vast resource of information and research materials. It has played a central role in the development of the university and its students. The library has been instrumental in the advancement of knowledge and the promotion of learning. It has provided a place where students can find the books and materials they need to succeed in their studies. It has also been a place where scholars can find the resources they need to conduct their research. The library has been a source of pride and a source of strength for the university for over 150 years. It will continue to be a source of pride and a source of strength for many years to come.
