5. Grounds

Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below. There is **no word limit** as the box expands to fit what you write.

You can also insert photographs or images in this box. (See part 6 – Supporting materials for more information).

* Public Health and Safety is my main observation.

- The child safety implications here are high. Many young children play outdoors in this safe secure residential area and indeed play on the actual green space that the wall in question divides from a main dual carriageway i.e. "The Malahide Rd". The risks of a child following a ball onto the dual carriageway road and being hit by a car are enormous just by way of an example.

- The removing of the wall will allow for an increase in Anti Social Behaviour in this quiet area. It allows access to electric scooters etc. which in the wrong hands puts our children in danger just as another example of the safety risks to our area and children. it will become an easy escape route from Gardai making their already difficult job even more difficult.

5. Grounds

There is a strong probability of making this quiet residential area an area of high crime.

- There will be an increase of traffic volume as people will use our roads to "Park and Ride" but live in other areas nearby again a safety issue for our children who play happily and safely on these roads
- There are many reasons not to remove this wall, the main one being it is not wanted or needed by the residents whose main priority is the health and safety of our children
