## Observation details

### 5. Grounds

Please describe the grounds of your observation (planning reasons and arguments).

You can type or write them in the space below. There is **no word** limit as the box expands to fit what you write. You can also insert photographs or images in this box. (See part 6 – Supporting materials for more information.)

The proposed development would be built on a flood plain, putting the development itself, and that of Primrose Gate behind it, at higher risk of flooding due to the additional burden put on the drainage system and surrounding waterlogged area.

There is insufficient infrastructure in place with proposed road access placing an additional burden on both Shinkeen Road, and the Dublin Road, which are unsuitable for the expected volume of traffic. This would further overburden the road network in Celbrige, which struggles to accommodate the existing volume of traffic.

## 5. Grounds

There are insufficient school places available in Celbridge to accommodate the current population. Additional housing, and the associated number of school-goers, would further overburden the school system.

There are insufficient doctors in Celbridge to facilitate the current population meaning that additional population would have to look elsewhere for medical practitioners.

The area is currently home to a rich and diverse ecostructure. Construction on the lands would remove the habitat of a large number of native wildlife and plants.

The developer is seeking access to the Primrose Gate estate which would compromise the security of the estate and allow for unnecessary pedestrian access to a private estate.
