*There is not 7 full days data due to continuous damage to counter/tubing.

METROCOUNT 5600 series automatic traffic counters, attached to pneumatic tubes, were used at all the sites. Data was collected in both directions at all locations, with one counter being used for single carriageway sites (1 lane per direction).

The survey was carried out with survey hours of 00:00 to 00(24):00 (Some times vary due to on-going damage to counters and tubing).

Site 54, due to continuous damage to the counter and tubing, we were unable to extract any usable data.

Sites 63 to 66, 68 & 69, counters stolen and no data for these sites.
