County Monaghan, County Cavan and County Meath

In accordance with Section 182A of the Planning and Development Act, 2000 (as amended), EirGrid plc, with the consent and approval of the Electricity Supply Board (ESB), gives notice that it proposes to seek the approval of An Bord Pleanála for the development of that portion of a cross-border electricity transmission interconnector to be constructed within Ireland (and referred to as the 'proposed North-South 400 kV Interconnection Development').

The overall interconnector (approximately 138km long inclusive of approximately 34km located in Northern Ireland) will link the existing electricity transmission networks of Northern Ireland and Ireland between Turieenan, County Tyrone and Woodland, near Batterstown, County Meath. This interconnector has been designated as a Project of Common Interest (PCI) pursuant to the provisions of Regulation (EU) No. 347/2013 of the European Parliament and of the Council of 17th April 2013 on guidelines for trans-European energy infrastructure.

The proposed North-South 400 kV Interconnection Development located in Counties Monaghan, Cavan and Meath, which will be the subject of the application for approval, is approximately 103.35km long and consists of the following principal elements:

(i) A new single circuit 400 kV overhead transmission line (covering a distance of approximately 100.5km in the counties of Monaghan, Cavan and Meath) extending in a generally southerly alignment from the jurisdictional border with Northern Ireland (between the townland of Doohat or Crossreagh, County Armagh, and the townland of Lemgare, County Monaghan) to the townland of Bogganstown (Electoral District (ED) Culmullin), County Meath. In addition the proposed transmission line crosses the jurisdictional border with Northern Ireland at two points - from the townland of Lemgare, County Monaghan into the townland of Crossbane, County Armagh and back into the townland of Lemgare, County Monaghan. This transmission line comprises 299 No. new lattice steel support structures (ranging in height from approximately 26m to 51m over ground level), with associated conductors, insulators, and other apparatus.

The proposed new transmission line extends across the following townlands of County Monaghan, County Cavan and County Meath:

County Monaghan: Lemgare, Lisdrumgormly, Annaglogh, Latnakelly, Tassan, Cashel, Annagh (Cremome Barony (By)), Carrickanure, Clarderry, Comamucklagh North, Derryhallagh (Monaghan By), Drumroosk, Cargaghramer, Cornanure (Monaghan By), Rausker, Terrygreeghan, Cornamucklagh South, Crinkill, Clogher, Drumguillew Lower, Drumhawan, Greagh (Cremorne By), Brackly (Cremorne By), Tullynahinnera, Cooltrimegish, Boraghy, Aghmakerr, Drumillard (Cremorne By), Tooa, Tullyglass, Comasassonagh, Corrinenty, Ummerafree, Sreenty, Ardragh, Corvally (Farney By), Raferagh, Cornalaragh, Doagh, Corlea (ED Drumcarrow), Scalkill and Ballaghnagearn.

AN BORD PLEANÁLA

Planning and Development Acts 2000 to 2014

NOTICE OF DIRECT PLANNING APPLICATION TO AN BORD PLEANÁLA FOR APPROVAL IN RESPECT OF A STRATEGIC INFRASTRUCTURE DEVELOPMENT

(A PROPOSED ELECTRICITY TRANSMISSION DEVELOPMENT)

County Monaghan, County Cavan and County Meath

In accordance with Section 182A of the Planning and Development Act, 2000 (as amended), EirGrid pic, with the consent and approval of the Electricity Supply Board (ESB), gives notice that it proposes to seek the approval of An Bord Pleanála for the development of that portion of a cross-border electricity transmission interconnector to be constructed within Ireland (and referred to as the 'proposed North-South 400 kV Interconnection Development').

The overall interconnector (approximately 138km long inclusive of approximately 34km located in Northern Ireland) will link the existing electricity transmission networks of Northern Ireland and Ireland between Turleenan, County Tyrone and Woodland, near Batterstown, County Meath. This interconnector has been designated as a Project of Common Interest (PCI) pursuant to the provisions of Regulation (EU) No. 347/2013 of the European Parliament and of the Council of 17th April 2013 on guidelines for trans-European energy infrastructure.

The proposed North-South 400 kV Interconnection Development located in Counties Monaghan, Cavan and Meath, which will be the subject of the application for approval, is approximately 103.35km long and consists of the following principal elements:

(f) A new single circuit 400 kV overhead transmission line (covering a distance of approximately 100.5km in the counties of Monaghan, Cavan and Meath) extending in a generally southerly alignment from the jurisdictional border with Northern Ireland (between the townland of Doohat or Crossreagh, County Armagh, and the townland of Lemgare, County Monaghan) to the townland of Bogganstown (Electoral District (ED) Culmullin), County Meath. In addition the proposed transmission line crosses the jurisdictional border with Northern Ireland at two points - from the townland of Lemgare, County Monaghan into the townland of Crossbane, County Armagh and back into the townland of Lemgare, County Monaghan. This transmission line comprises 299 No. new lattice steel support structures (ranging in height from approximately 26m to 51m over ground level), with associated conductors, insulators, and other apparatus.

AN BORD PLEANÁLA

Planning and Development Acts 2000 to 2014

NOTICE OF DIRECT PLANNING APPLICATION TO AN BORD PLEANÁLA FOR APPROVAL IN RESPECT OF A STRATEGIC INFRASTRUCTURE DEVELOPMENT

(A PROPOSED ELECTRICITY TRANSMISSION DEVELOPMENT)

County Monaghan, County Cavan and County Meath

In accordance with Section 182A of the Planning and Development Act, 2000 (as amended), EirGrid plc, with the consent and approval of the Electricity Supply Board (ESB), gives notice that it proposes to seek the approval of An Bord Pleanála for the development of that portion of a cross-border electricity transmission interconnector to be constructed within Ireland (and referred to as the 'proposed North-South 400 kV Interconnection Development')

The overall interconnector (approximately 138km long inclusive of approximately 34km located in Northern Ireland) will link the existing electricity transmission networks of Northern Ireland and Ireland between Turleenan, County Tyrone and Woodland, near Batterstown, County Meath. This interconnector has been designated as a Project of Common Interest (PCI) pursuant to the provisions of Regulation (EU) No. 347/2013 of the European Parliament and of the Council of 17th April 2013 on guidelines for trans-European energy infrastructure.

The proposed North-South 400 kV Interconnection Development located in Counties Monaghan, Cavan and Meath, which will be the subject of the application for approval, is approximately 103.35km long and consists of the following principal elements:

(i) A new single circuit 400 kV overhead transmission line (covering a distance of approximately 100.5km in the counties of Monaghan, Cavan and Meath) extending in a generally southerly alignment from the jurisdictional border with Northern Ireland (between the townland of Doohat or Crossreagh, County Armagh, and the townland of Lemgare, County Monaghan) to the townland of Bogganstown (Electoral District (ED) Culmullin), County Meath. In addition the proposed transmission line crosses the jurisdictional border with Northern Ireland at two points from the townland of Lemgare, County Monaghan into the townland of Crossbane, County Armagh and back into the townland of Lemgare, County Monaghan. This transmission line comprises 299 No. new lattice steel support structures (ranging in height from approximately 26m to 51m over ground level), with associated conductors, insulators, and other apparatus. The proposed new transmission line extends across the following townlands of County

Monaghan, County Cavan and County Meath: County Monaghan: Lemgare, Lisdrumgormly, Annaglogh, Latnakelly, Tassan, Cashel, Annagh (Cremorne Barony (By)), Carrickanure, Clarderry, Cornamucklagh North, Derryhallagh (Monaghan By), Drumroosk, Cargaghramer, Cornanure (Monaghan By), Rausker, Terrygreeghan, Cornamucklagh South, Crinkill, Clogher, Drumguillew Lower, Drumhawan, Greagh (Cremorne By), Brackly (Cremorne By), Tullynahinnera, Cooltrimegish, Boraghy, Aghmakerr, Drumillard (Cremorne By), Tooa, Tullyglass, Cornasassonagh, Corrinenty, Ummerafree, Sreenty, Ardragh, Corvally (Farney By), Raferagh, Cornalaragh, Doagh, Corlea (ED Drumcarrow), Scalkill and

(ii) Modifications are required to three existing 110 kV overhead lines. The modifications comprise the insertion of additional polesets and / or replacement of existing structures with polesets of shorter height (ranging in height from approximately 11,5m to 19m over ground level) in the following locations:

• The vicinity of where the proposed 400 kV overhead transmission line intersects with the Lisdrum-Louth 110 kV transmission line, in Drumroosk, County Monaghan.

• The vicinity of where the proposed 400 kV overhead transmission line intersects with the Louth-Rathrussan 110 kV transmission line, in Corrinenty and Corbane, County Monaghan.

(v) An associated temporary construction material storage yard to be located in the townlands of Monaltyduff and Monaltybane, Carrickmacross, County Monaghan, on a site of approximately 1.4ha, including associated site works, new site entrance onto the L4700 Local Road, associated 2.6m high boundary palisade fencing (with noise barrier affixed) and associated ancillary staff facilities and parking.

(vi) All associated and ancillary development including works comprising or relating to permanent and temporary construction and excavation.

Both an Environmental Impact Statement (EIS) and Natura Impact Statement (NIS) have been prepared in respect of the proposed development. In addition a Joint Environmental Report (JER) has been prepared by EirGrid plc and SONI Ltd in respect of the overall interconnector from County Tyrone to County Meath, having had regard to the European Commission Guidance on the Application of the Environmental Impact Assessment Procedure for Large-Scale Transboundary Projects (May 2013).
