Zone of Theoretical Visibility Mapping

This mapping indicates areas from which the proposed development is *theoretically* visible. It is important to note that the mapping does not indicate areas from which the proposed development *will* be visible. The ZTV mapping should therefore be used in conjunction with photomontages in order to ascertain the difference between *theoretical* and *actual* visibility. This ZTV has been prepared based on an observer's height of 1.6m.

- 1-5 Structures Theoretically Visible
- 6-10 Structures Theoretically Visible
- 11-15 Structures Theoretically Visible
- 16-20 Structures Theoretically Visible
- 21-30 Structures Theoretically Visible
- 31+ Structures Theoretically Visible
