Subject: Meeting Record 16.12.14 - Clarification

Good morning Aidan,

Further to the meeting between EirGrid and ABP PCI Unit of December 16th I would like to clarify our position on the scheduling of the permit granting process.

The record of the meeting states "It was agreed to meet again when the missing information was being provided". We consider it more efficient to meet when the missing information requested has been examined and therefore, do not propose to hold this meeting when you are submitting the missing information.

Regards,

Seamus Grant
