

The map displays a proposed 400 kV transmission line route through a rural landscape. Two towers are identified: Tower 99 at the top and Tower 100 in the middle. The route is marked by a solid grey line. A yellow dashed line indicates the proposed access track. A red dashed line outlines the proposed working area. A red solid line marks the redline boundary. A red dashed line indicates the stringing position boundary. A pink solid line marks the proposed stringing position. A legend in the top right corner defines these symbols. A north arrow is located in the top left corner.

Legend	
	Proposed Tower (with Tower Number)
	Proposed 400 kV Line Route
	Proposed Maximum Tower Foundation
	Proposed Working Area
	Proposed Access Track
	Guarding Location
	Redline Boundary
	Stringing Position Boundary
	Proposed Stringing Position
