Subject: Proposed Scope of the Application document for Celtic Interconnector

Dear Sir/Madam,

I refer to the above named project.

Article 10 of EU Regulation 347/2013 provides that the competent authority shall identify, in close cooperation with the other authorities concerned, the scope of material and level of detail of information to be submitted by the project promoter (EirGrid). The article also provides that this may be done on the basis of a proposal by the project promoter, which is what is being done in the attached documents. The Article also refers to a checklist which shall serve as a basis for the identification of the scope of material and level of detail. Please refer to page 21 of the PCI Manual of Permit Granting Process Procedures available on our website for details of the checklist.

Accordingly, you are asked to identify any scope of material or detail of information which is not referred to in the attached documents which you consider is required in relation to any consent for which you are the relevant authority and to reply to us by 16th February, 2021.

Yours faithfully,

Nichola Meehan
Executive Officer
