Attachments: Celtic_Interconnector_Project_Concept_for_Public_Participation_EirGrid_2020.pdf

Good Morning,

As you are aware the project known as the Celtic Interconnector (France-Ireland interconnection between La Martyre and Great Island or Knockraha) has been admitted to the PCI permit granting process. EirGrid, the project promoter, had, in June 2019, submitted a concept for public participation to An Bord Pleanála (Competent Authority) and your submissions/observations were requested then.

EirGrid has since then received confirmation that a consent was required within the UK Exclusive Economic Zone which necessitated a separate notification to the UK competent authority

Article 10 of Regulation (EU) No 347/2013 provides, that where two or more Member States are concerned, the date of acceptance of the last notification by the competent authority concerned shall serve as the date of the start of the permit granting process. Article 9 provides that the project promoter shall submit a concept for public participation within an indicative period of three months of the start of the permit granting process. Arising from the situation concerning the UK notification, EirGrid has submitted a concept for public participation. That concept is attached.

In line with the procedures given in our PCI Manual of Permit Granting Process Procedures, you are invited to make submissions/observations to us (An Bord Pleanála PCI Unit) in relation to the attached Concept for Public Participation within 3 weeks i.e. to reach us no later than 21st May 2020, 2020. Given the timelines involved we will not be in a position to give any extension of time for comment.

Kind Regards,

Sorcha
