Good Morning Roisin,

The PCI Unit has forwarded your response of 26/2/21 to the project promoter (EirGrid). In forwarding your response, we have pointed out that as the Competent Authority, acting in close co-operation with the other authorities concerned, we are not in a position at this time to identify the scope of material and level of detail of the information to be submitted by the project promoter.

Further to your comment below, we have also referred the project promoter to the requirements of Article 10.4. (b) of the Regulation as we consider that greater clarity is needed in relation to a schedule of permits/consents (and timelines) required to realise the project.

Regards,  
Diarmuid Collins,  
PCI Unit.
