Subject: Celtic Interconnector Project - French consultation

Dear Madam,

I refer to the project known as the Celtic Interconnector Project (PCI Number 1.6). The project promoter in France (RTE) has submitted the application file.

The granting process in France provides that mayors and concerned authorities are consulted before the public consultation.

Please find enclosed the downloading instructions of the consultation mail and the application files. This link is available for 28 days.

A reply within two months is requested.

Best regards,

LE POCHER Oriane (Chargé de mission transport et distribution d'électricité, gestion de crise électrique, smart grids électrique) - DREAL Bretagne/SCEAL/CAEC
