Re: PCI 1.6 'Celtic Interconnector' Project

Dear Seamus,

I refer to your letter dated January 4th 2019 and your request for a response as to whether the notification for the project should be acknowledged or rejected.

In relation to the Commencement Notice, not more than 28 days and not less than 14 days notice must be given to the Building Control Authority before the actual commencement of works on site(s).

The Commencement Notice and the relevant additional documentation should be submitted online by using Building Control Management System (BCMS).

Please note that in advance of submitting the Commencement Notice the developer must apply for a Fire Safety Certificate (FSC) to Cork County Council Building Control Authority for each of the new buildings and this must be granted and referenced on the online BCMS application. Similarly a Disability Access Certificate (DAC) may be required.

Please note the FSC(s) and DAC(s) required for such buildings cannot be dealt with until detailed designs are completed.

If you have any queries, please contact the Midleton Office on 021-4635500.

Yours Sincerely,

Michael Kelleher SEFO
Seamus Coughlan
Chief Fire Officer
