Subject: RE: An Bord Pleanála (PCI)

Good Morning Diarmuid

Many thanks for the phone call on Friday.

I am happy to confirm that the proposal concerning the scope of material and level of detail of information to be submitted by Greenlink as part of the application file is contained in my emails and attachments of 17/2/20 and that it is our intention that this material constitutes a proposal as per article 10.4.(a) of EU Regulation 347/2013.

With Best Regards

Paul

Subject: An Bord Pleanála (PCI)

Good Afternoon Paul,

Thank you for phoning me this afternoon. As per our conversation I attach a memo. concerning the next steps in the process. Please note the second bullet point on page 2 of the memo and revert to me by Monday, if possible, to confirm this aspect of our conversation concerning a proposal about the scope of material and level of detail of information.

Regards,
Diarmuid Collins.

Greenlink PCI Project – Next Steps in Process as outlined at Meeting of 31/1/2019.

- As a guide, please refer to the Manual of Permit Granting Process Procedures, in particular pages 19 to 25, available on our website.
- In particular, the following are the next procedural steps as discussed:
- Greenlink is to confirm that all required permits have been listed and in relation to the CRU, Greenlink is to resolve any issue concerning a consent under section 14(1)(i) of the Electricity Regulation Act, 1991 as amended.
- ABP(CA) notes that your letter and attachment dated 17/2/20 lists a consent required under section 14(1)(i) of the Electricity Regulation Act, 1991 as amended.
- A list of consents is to be forwarded to ABP(CA).
- ABP(CA) notes that your letter and attachment dated 17/2/20 lists a schedule of permits (consents).
- A detailed schedule (Article 10.4(b) of the EU Regulation 347/2013) which shall specify at a minimum the matters set out in Annex VI (2) is to be drawn up.
- ABP(CA) will now proceed to contact those consenting authorities listed and request their input into the schedule, particularly, in relation to the duration of the individual stages of the procedure.

- On page 20 of the Manual of Permit Granting Process Procedures, we refer to the project promotor submitting a proposal to us as competent authority. On receipt of the proposal, we will circulate that proposal to all the relevant consenting authorities for them to identify the scope of material and level of detail of information to be submitted as part of the application file.
- ABP(CA) understands that the proposal concerning the scope of material and level of detail of information to be submitted by Greenlink as part of the application file is contained in the emails and attachments of 17/2/20 and that it is your intention that this material constitutes a proposal as per article 10.4.(a) of EU Regulation 347/2013. Subject to you confirming this, ABP(CA) will proceed to contact those consenting authorities listed and request their response to the proposal.
- Timescales. The timeline allowed to the consenting authorities will be in the region of 10 weeks. As competent authority, we understand from our meetings with you that you consider yourselves well advanced in consultations with the consenting authorities and that, accordingly, they may be in a position to respond inside that timescale.
- Draft Application file, please refer to page 21 of the Permit Granting Process Procedures Manual.
