Shannon LNG Planning

Dear Sir/Madam,

Thank you for your letter **dated 6th-August**, containing Minister Darragh O'Brien's Clarification regards the Government Policy on the Importation & Storage of LNG in Ireland and Shannon LNG's response to your RFI. I have read both documents most carefully and I now wish to comment on why ACP in particular and Shannon LNG need to bring this long drawn out Application to a **conclusion!**

This Planning Application saga has been going back and forth for the last 16 years and we the people that live in the Tarbert/Ballylongford and the wider North Kerry area, have supported it from the start and we continue to support it! We live here, it's our environment too, we would never permit or allow anything that would damage it.

To that end we only attach two conditions to any Planning Application, i.e. "Proper Planning & Sustainable Development"!!

I have over the years written several Submissions to ABP, setting out why I believe in the Shannon LNG Application and I refer you to my most recent one, dated **11th -June -2024**, which lists several valid reasons why this Project should get Planning Permission.

Over the years this Project has been subject to - (1) Public Consultation, (2) The High Court action, (3) to the European Court of Justice and (4) back again to the High Court !

would be breaking! i.e. Anti-Competition, State-Aid, to mention just two!

(g) Minister Darragh O'Brien's recent Clarification of the Government's Importation & Storage of Gas policy, removes the impediment that has delayed ABP from making a decision!

In Conclusion, I wholeheartedly support this Shannon LNG Planning Application and I urge ABP to Grant Permission.

I again refer you to my submission dated 11th-June-2024.

Thank You.

John Fox.
