

Case Number: ABP-322568-25

An Coimisiún Pleanála

64 Marlborough Street

Dublin 1

D01 V902

Date: 17th Sept 2025

RE: 10 year permission for proposed Shannon Technology and Energy Park consisting of power plant battery energy storage system, floating storage and regasification unit, jetty, onshore receiving facilities, above ground installation and all ancillary structures/works. Townlands of Kilcolgan Lower and Ralappane, Ballylongford, Co Kerry.

To whom it may concern

I am writing on behalf of Listowel Business and Community Alliance to express our support for the proposed Shannon Technology and Energy Park.

We support this project for the potential it holds for jobs locally and to encourage further development in this very much under-developed site.

The Government published its Review to the Security of Energy Supply of Irelands electricity and natural gas systems on March 4th 2025. After an assessment of the potential risks to Irelands Natural Gas security of supply, the review identified a clear evidence basis, and pressing need, for imports of LNG into the state and identified a Floating Storage and Regasification Unit as the preferred method.

Following this Government Review it further highlights the necessity to build the Shannon Technology and Energy park immediately.

Yours Sincerely

Rose Wall Chairperson
